The Czechs under Nazi Rule:

The Failure of National Resistance, 1939–1942

VOJTECH MASTNY. This study, which makes use of previously unknown captured German documents, will be of lasting interest to students of World War II and postwar history, not only because of the factual material here uncovered for the first time, but also because of Mr. Mastny's observations on the possibilities and limits of defiance towards a powerful occupation force.

"... a most interesting and well researched study of an area and a period that have been largely overlooked in histories of the Second World War ... will be of particular value to those interested in Nazi wartime policies in the occupied territories and in the problem of collaboration and resistance."—Henry L. Roberts

Winner of the Clarke F. Anseley Award.
