FROM HOGARTH TO ROWLANDSON MEDICINE IN ART IN EIGHTEENTH-CENTURY BRITAIN

Fiona Haslam

This book shows how medicine and medical practitioners were portrayed by some of the artists of the eighteenth century. Dr Haslam places 'the art of medicine' of the eighteenth century in its social, historical and political context and shows how this, together with a knowledge of the lives of the artists themselves, is necessary for a better understanding of that art in an age in which hope was often raised by medical innovation, but all too often dashed.

SIGMAR POLKE BACK TO POSTMODERNITY

ed. David Thistlewood

Essays on Polke and his relationships to European and American avant-gardes from the mid-1960s. The volume presents a number of critiques which shed light on his otherwise bewildering display of stylistic references, apparent changes of allegiance and often unorthodox techniques of production. It identifies aspects of Polke's work about which there is reasonable consensus besides those which stimulate profound disagreement.

BARBARA HEPWORTH RECONSIDERED

ed. David Thistlewood

Part of the first large-scale critical reappraisal of this artist for more than twenty years, bringing Hepworth's achievements into revised appreciation and addressing a subject deeply anchored in Modernist interpretation. This volume brings together historians who are extending and consolidating conventional interpretation of Hepworth and those proposing alternative critiques.

STOP PRESS !

design and applied arts index on CD-ROM

[New edition]

Forget anything you may have seen before. Using the latest database software, daai on CD-ROM has been completely redesigned.

New features include:

A SIMPLE AND FAST 'ONE-STOP' SEARCH FACILITY

If a search turns up nothing in the Subject Index, it will automatically switch to a full text search.

A TALK FACILITY

The screen text can be read to you (optional male or female voice). A feature of particular value to partially-sighted and dyslexic users.

FRENCH AND GERMAN TEXT

The on-screen instructions can be viewed in English, French or German (other languages, including Dutch, Italian and Spanish, will follow). daai on CD-ROM also contains glossaries in French and German of the key terms used in the index.

A TOUCH SCREEN OPTION

You can dispense with the keyboard and mouse if you want to.

HOLDINGS DETAILS

You can now tag, on screen, those journals taken by your library, giving site location, shelf marks, etc.
