

Erratum

Central Retinal Artery Occlusion at a Canadian Academic Center – ERRATUM

Matthew P. Quinn , Victoria Liu, Danah Albreiki and Daniel A. Lelli

DOI: <https://doi.org/10.1017/cjn.2025.25>, Published by Cambridge University Press on behalf of Canadian Neurological Sciences Federation, 18 February 2025

Keywords: acute retinal ischemia; central retinal artery occlusion; neuro-ophthalmology; practice patterns; stroke; erratum

This article was originally published with the following paragraph missing:

“Among the 70 patients with non-arteritic CRAO, 18 (25.7%) had ipsilateral carotid stenosis over 50%, including 1 patient who had complete stenosis and 1 patient who had associated free floating thrombus. One patient was found to have a lymphomatous mass encasing the ipsilateral common carotid artery.”

This paragraph has now been updated in the article. The publishers apologise for any misunderstanding caused by this omission.
