

INTERNATIONAL JOURNAL OF

**MICROWAVE AND WIRELESS TECHNOLOGIES****CONTENTS**

## FILTERS

**Compact triple-band bandpass filter using multi-mode HMSIW cavity and half-mode DGS**

Sambaiah Pelluri and M. V. Kartikeyan 103

## PASSIVE COMPONENTS AND CIRCUITS

**Compact multimode-resonator multiplexer with wide upper-stopband and high isolation**

Kaijun Song, Mou Luo, Cuilin Zhong, Yuxuan Chen, Yedi Zhou and Fei Xia 111

## METAMATERIALS AND PHOTONIC BANDGAP STRUCTURES

**A compact flexible textile artificial magnetic conductor-based wearable monopole antenna for low specific absorption rate wrist applications**

Mohamed El Atrash, Mahmoud A. Abdalla and Hadia M. Elhennawy 119

**Concept and analysis of a coupled split-ring resonator for wide-/dual bands, self-filtering, high out-of-band suppression and highly efficient antennas**

Mahmoud A. Abdalla, Mohamed El Atrash, Nour A. El-Sobky and Sherif R. Zahran 126

## EM FIELD THEORY

**The efficient implementation of IE-FFT algorithm with combined field integral equation for solving electromagnetic scattering problems**

Seung Mo Seo 137

**A new path loss model based on the volumetric occupancy rate for the pine forests at 5G frequency band**

Abdullah Genc 144

## MICROWAVE MEASUREMENTS

**Microwave absorption study of dried banana leaves-based single-layer microwave absorber**

Soumya Sundar Pattanayak, S. H. Laskar and Swagatadeb Sahoo 154

## ANTENNA DESIGN, MODELLING AND MEASUREMENTS

**An optimal circular antenna array design considering the mutual coupling employing ant lion optimization**

Avishek Das, Durbadal Mandal and Rajib Kar 164

**Fractal antennas and arrays: a review and recent developments**

Anirban Karmakar 173

**A circular polarized reflectarray antenna with electronically steerable beam and interchangeable polarizations**

Mohammad Fazaelifar, Shahrokh Jam and Raheleh Basiri 198
