

## EDITORIAL AND ANNOUNCEMENTS

### EDITORIAL COMMENT

The ASTIN Bulletin as official publication “vehicle” of ASTIN, intends to serve also the new AFIR section of the IAA. For this purpose we have published already in our previous volumes 18.2 and 19.1 some editorials, invited and contributed papers. In order to make these editorials and papers available to all new AFIR members we have put them together in this introductory Special Issue.

*From Volume 20.1 (1990) on, the AFIR members will receive the complete ASTIN Bulletin at the same time as the ASTIN members.*

May we use this opportunity to welcome our new readers to the ASTIN Bulletin.
