

IN THEIR OWN INTERESTS

Race, Class and Power in Twentieth-Century Norfolk, Virginia

EARL LEWIS

Focusing on Norfolk, Lewis shows how blacks have had to balance competing inclinations for conscious inaction and purposeful agitation as they sought to promote their own interests at home and in the workplace.

POLITICS**

CHANDLER DAVIDSON

Texas—with its legendary economic power, its key role in presidential elections, and its legislative heft amounting at times to domination of the U.S. Congress—is a fundamental piece in the American political puzzle. To show how that dynamic one-party state developed a modern two-party system, this major work on Texas politics since 1944 builds on insights of the eminent political scientist and native Texan V. O. Key, Jr.

Key believed that Texas would lead the South in replacing the politics of race by a competitive two-party system similar to that of the nation as a whole, in which class divisions outweigh those based on race. Analyzing the ways in which that transformation actually took place, Chandler Davidson chronicles the interwoven political careers of a colorful cast of characters, including Lyndon Johnson, George Bush, John Tower, Barbara Jordan, Lloyd Bentsen and others.

“This book will be hailed as the best work to date on Texas politics, and it will be as valid in 2020 as in 1990. Davidson brings mature understanding to the socio-economic factors that underlie the bewildering tangle of Texas politics. He treads a difficult path with rare skill and insight.”—Joe B. Frantz, *Corpus Christi State University, former Director of the Texas State Historical Association*

EXECUTIVE DIRECTOR

INTER-UNIVERSITY CONSORTIUM FOR POLITICAL AND SOCIAL RESEARCH

The Council of the Inter-university Consortium for Political and Social Research (ICPSR) and the University of Michigan's Center for Political Studies invite applications and nominations for the position of Executive Director of the ICPSR. Selection criteria will include: demonstrated capability for successful leadership and management of a complex social science organization; an interdisciplinary perspective in keeping with the diverse substantive and technical areas in which the ICPSR works; proven capacity to plan, prepare, and submit successful proposals to funding agencies in the public and private sectors; substantive and technical conversance with use, preparation, management, and distribution of computer-readable data for instruction and research in the social sciences; a Ph.D. or equivalent in a social science discipline or related area of inquiry; research and publications commensurate with appointment to research scientist and/or professor in a university department in the social sciences or related areas. The Executive Director will be appointed to the staff of the Center for Political Studies, if appropriate, as a research scientist, and will also be appointed, if appropriate, as a professor in a relevant department or school at The University of Michigan. The successful candidate should be prepared to assume the position on September 1, 1991. The salary will be commensurate with the appointee's qualifications. The University of Michigan is a non-discriminatory, affirmative action employer.

Applications and nominations should be submitted by 01 January 1991, with vita, resume, and names of references to:

Chair, ICPSR Search Committee

SCIENCE & SOCIETY

An Independent Journal of Marxism

Edited by David Goldway

SCIENCE & SOCIETY is an interdisciplinary journal of Marxist thought and analysis. Now in its 53rd year, it seeks original scholarship in: political economy and the economic analysis of contemporary capitalist and socialist societies; philosophy and methodology in the natural and social sciences; history, labor, black and women's studies; aesthetics, literature and the arts. Especially welcomed is theoretical and applied research which both breaks new ground in a particular discipline and is intelligible and useful to non-specialists.

While the journal does not adhere to any particular school of contemporary Marxist discussion, or attempt to delineate precise boundaries for Marxism, it does encourage contributors, where appropriate, to establish the relationship of their work to the classical writings of Marxism, as well as to the current literature in their subject area.

Gunnar Myrdal and America's Conscience

Social Engineering and Racial Liberalism, 1938–1987
by Walter A. Jackson

"The deepest, most scholarly and insightful treatment yet written of Gunnar Myrdal and his classic, *An American Dilemma*. Walter Jackson's volume constitutes a major contribution to a variety of fields—race relations, the history and sociology of twentieth-century American social science, and the history of social policy in the United States. It can be highly recommended to all readers with interests in these fields."

Insuring National Health Care

The Canadian Experience
by Malcolm G. Taylor

"Only Malcolm Taylor with his great breadth of experience and knowledge could have written this book, predominantly for American readers. . . . He reviews not only the political background but the mechanisms put into place to make what is arguably one of the best health systems in the world. . . . This book belongs on the bookshelf of everyone engaged in or studying health administration in the U.S. and Canada, as well as abroad."
