Behavioral and Brain Sciences

Editors

Barbara L. Finlay, *Cornell University, USA*

Paul Bloom, *Yale University, USA*

Behavioral and Brain Sciences, with its imposing ISI Impact Factor of 12.818, is an internationally renowned journal with an innovative format. Significant and controversial pieces of work are published from researchers in psychology, neuroscience, behavioral biology or cognitive science, together with 20–30 commentaries on each article from specialists in these disciplines, plus the author's response to them. The result is a unique forum for communication, criticism, stimulation, and unification of research in behavioral and brain sciences – from molecular neurobiology to artificial intelligence and the philosophy of the mind.

Journal of the International Neuropsychological Society

Published for the International Neuropsychological Society

Editor-in-Chief

Kathleen Y. Haaland, *NM VA Healthcare System, Albuquerque, US*

JINS aims to further scientific and research activities in neuropsychology and enhance communication among its cognate member disciplines. The journal publishes scholarly, peer-reviewed articles and includes original research, timely review articles and transactions of the annual meetings of the International Neuropsychological Society. Contributions reflect the interest of all areas of neuropsychology, including (but not limited to): development of cognitive processes, brain-behavior relationships, adult neuropsychology, child neuropsychology, developmental neuropsychology, disorders of speech and language, and related topics such as behavioral neurology, neuropsychiatry, neuroimaging, and electrophysiology.

Applied Psycholinguistics

Editor

Martha Crago, *Dalhousie University, Canada*

Applied Psycholinguistics publishes original research papers on the psychological processes involved in language. It examines language development and disorders in adults and children with and without developmental disabilities. Articles in *Applied Psycholinguistics* address the nature, acquisition, and impairments of language expression and comprehension, including writing and reading. This journal gathers together the best work from a variety of fields including linguistics, psychology, reading, education, language learning, sociology, speech and hearing, and neurology. In addition, issues include reviews of important new books, problem-oriented reviews of important or emergent areas, discussions of previously published papers, and methodological notes.

Psychological Medicine

Editors

Kenneth S. Kendler, Virginia Institute for Psychiatric Behavioral Genetics, Virginia, USA

Robin M. Murray, Institute of Psychiatry, London, UK

Now in its fifth decade of publication, *Psychological Medicine* is a leading international journal in the fields of psychiatry, clinical psychology and the related basic sciences. There are twelve issues per year, each featuring original articles reporting key research being undertaken worldwide, together with shorter editorials by distinguished scholars and an important book review section. The journal's success is clearly demonstrated by a consistently high Impact Factor.

Bilingualism: Language and Cognition

Editor

Jürgen M. Meisel, Hamburg University, Germany
David W. Green, University College London, UK
Ping Li, Pennsylvania State University, USA
Carmen Silva-Corvalán, University of Southern California, USA

Bilingualism: Language and Cognition is an international peer-reviewed journal focusing on bilingualism from a cognitive science perspective. The aims of the journal are to promote research on the bilingual person and to encourage debate in the field. The domains covered are the following: bilingual language competence, perception and production, bilingual language acquisition in children and adults, neurolinguistics of bilingualism (in normal and brain-damaged populations), and non-linguistic cognitive processes in bilinguals. *Bilingualism* carries articles and research notes on all aspects of the bilingual person, and is published three times a year.

Curing 'the bends'

“ Hill and Greenwood decompressed themselves, without any serious symptoms, after short exposures at excess pressures of as much as five and even six atmospheres.”

From 'The Prevention of Compressed Air Illness',
Journal of Hygiene, 1908

This breakthrough article included early research into decompression and the first ever dive tables.

It's just one of the treasures in the Cambridge Journals Digital Archive
