EUROPEAN JOURNAL OF RISK REGULATION

At the Intersection of Global Law, Science and Policy

The *European Journal of Risk Regulation* is an interdisciplinary forum bringing together legal practitioners, academics, risk analysts and policymakers in a dialogue on how risks to individuals' health, safety and the environment are regulated across policy domains in Europe and beyond. The journal's wide scope encourages exploration of public health, safety and environmental aspects of pharmaceuticals, food and other consumer products alongside a wider interpretation of risk, which includes financial regulation, technology-related risks, natural disasters and terrorism.
