

## **ROBERT LODER'S FARM ACCOUNTS**

To be off of fat goe grasse when he bring  
Grauncs of m hale fome & had & recovered of his blyp. wth went much  
as doth happen every year. But debuting for tye of fat goe flocks except  
for them and then he done diffit to manying it

Dame part

Thursd Eate it is to be thought of no fat and fewe mire, my lande is too  
waste by frong from the wth hoggs extract dairies / the geese will eat  
nothing about the mire backe up wth mire  
Thursd Eate y mire because fat goe wth dairies or dairies field  
and the yds goswylle fat is it bett to spew them for foder  
and not lette them.

### The same diffit of goe flocks for grasse

Impturk & is hale fome & had all after partition 7000 of hale & 8000  
grasse flocks in land at the mire too dairies / dairies / the  
and the mire of goe flocks to 10000 of them all after partition  
grasse would not be fed off but be debuting for tye of red flocks  
for them at mire too dairies a dairies / the geese remained 3000  
of red flocks to fome of

Dame part

Thursd Eate hale & is hale fome to for goe & come off and add. in  
Cotes off aboute fome except a lame and not anfet, no fat mire  
then yett a fewe flocks of em backe legs are wth mire, nothing for  
mire it good to bebanck to the flocks of pale, if we might have a  
mire too mire diffit to goe downe and want fall out to be fome legs  
and of goe lame to not working too diffit one yarde to come fome  
to mire too worse for the litenging.

### The same in making my Eare, you mire y Eare grasse and goe value thereof. goe & Cotes off of it

Impturk the morrow of goe flocks wth all a great & a way  
the morrow all my graft in goe Meale fall a great graft a day  
the for morrow goe both man & to y mire, filled & wth  
Mire, payd for goe both man & a half at 30000  
the day and 10/12 pence per

the goe making of goe flocks goe soft not working my hirf  
on the labour & mayde at my selfe

Dame for morrow of making int 20000000

To be off of goe hale grasse and goe value thereof.  
Impturk I had in goe flocks by ordinary hale & a half 10000000  
the wth value wthout at goe flocks  
The y flocks in goe hale Meale fall a great graft a day  
the mire flocks altho at goe flocks  
fall to a great graft a day  
fall out of goe flocks flocks to a great graft a day  
the mire flocks altho at goe flocks  
fall to a great graft a day  
the mire flocks altho at goe flocks  
fall to a great graft a day

Summire of the values of y mire - to be off of goe flocks
