Executive Secretary M. W. Richey, M.B.E.

The Journal of Navigation

THE *Journal* is published quarterly by the Institute and is edited by M. W. RICHEY. It contains original papers contributing to the science of navigation, including those presented at meetings of the Institute together with the ensuing discussion. In addition the *Journal* includes a record of current navigational work, reviews of important books, and other matters of concern to those interested in navigation. The views expressed in the *Journal* are not necessarily those of the Institute, or of any organization or department to which the authors may belong. Crown Copyright may be reserved.

The *Journal* is issued free to all members of the Institute. It is sold to the public at one pound fifty per copy or, by subscription, at six pounds thirty-five per annum (post free) and may be obtained through all booksellers and John Murray (Publishers) Ltd., 50 Albemarle Street, London W1. Back numbers dated two years prior to the current volume may be obtained from William Dawson & Sons, Ltd., (Back Issues Department), Cannon House, Folkestone, Kent.

Enquiries for advertising space should be addressed to the Institute offices.

The postal address of the Institute is The Royal Institute of Navigation, at The Royal Geographical Society, 1 Kensington Gore, London SW7. (Telephone: 01-589 5021).

Volumes of the *Journal* can be bound for two pounds. The parts should be sent to William Clowes & Sons Ltd., 15 Cavendish Square, London, W1M 0HT.

'Electronic Chernikeeff'

SOLID STATE

Accurate and dependable at all speeds down to 1-knot and distance run to within 1%.

Suitable for Ship's Side or Bottom mounting—equal accuracy.

Linear Speed Analog Voltage Transmission available direct from Log.

Has built-in Transmission for 'True-motion' Radar.

Low installation costs—simple maintenance.

The Retractable Log Tube can be provided remotely controlled from the Wheel-house.

The ideal Log for all Mercantile Vessels—backed by over 50 years actual experience in the design and manufacture of Impeller Log Chernikeeff's.

Log makers to the British Navy and Overseas Navies for more than 40 years.

MARCONI-MARINE world wide service available to users.

MARINE OBSERVER

A quarterly journal of maritime meteorology prepared by the Marine Division of the Meteorological Office, containing articles on weather, currents, ice conditions, meteorological observing at sea, and the practical use of a knowledge of meteorology to seamen. A large part of each issue is devoted to reports of meteorological and other scientific phenomena which have been contributed by voluntary observing ships.

Published in January, April, July, October, by Her Majesty's Stationery Office. 42½p (by post 45p) per issue; annual subscription £1.88 including postage

Available from the Government Bookshops in London, (post orders to PO Box 569, SE1 9NH), Edinburgh, Cardiff, Belfast, Manchester, Birmingham and Bristol, or through booksellers

at sea you need the confidence Kelvin Hughes inspires

all round confidence

Kelvin Hughes Radar and Radio
Communications equipment give
you complete visual and
audio information – unfailingly

confidence in depth

Unerring indication of depth,
underwater contours,
where the fish are.
Kelvin Hughes Echo Sounders
help you all the time.

THE INTERNATIONAL HYDROGRAPHIC BUREAU

Avenue Président J. F. Kennedy, MONACO

publishes

twice a year in January and July,
an English and a French edition of

THE INTERNATIONAL HYDROGRAPHIC REVIEW

This publication contains articles of topical interest on hydrography, hydrographic surveying and related subjects.

Each number contains an average of 160 pages, 18 × 27 cm., and numerous illustrations.

Price per number £2.50 or \$6 (U.S.), plus postage.

Orders should be sent direct to the Bureau's Headquarters in Monaco, but payments can be made to the Bureau's account at Barclays Bank Ltd., Chief Foreign Branch, 152-156 Upper Thames Street, London, E.C.3. Specify English or French edition when ordering.

A reduction of 25% on the list price is allowed to booksellers. A 30% reduction is granted to government offices and to naval or merchant marine officers of the IHO's Member States who send their orders direct to the Bureau.

IN THE WAKE OF THE TORREY CANYON

Reflections on a Disaster

L. Oudet

The loss of the *Torrey Canyon* in 1967 and the dispersal of its cargo of oil along the shores of Western Europe was one of the first of the series of disasters which have aroused the world to the menace of environmental pollution. At the same time the stranding drew attention to the peculiar dangers and difficulties inherent in the operation of mammoth ships, the need for traffic regulation at sea and the often doubtful efficiency of ships manned and operated under flags of convenience.

Commandant Oudet develops these themes from their exposure in the circumstances of the *Torrey Canyon* to the problems that now confront international shipping.

Spring 1972, illustrated £1.00 (members 75p)

Distributed by Hollis & Carter Ltd.

‘NAVIGATION, U.S.A.’ and ‘NAVIGATION (Paris)’

the quarterly Journals of the American and French Institutes of Navigation, are available to members of the Institute at a reduced subscription of £2 per annum each. Subscription enquiries should be addressed to the Institute office in London.

Institute Publications

The Haven Finding Art

by E. G. R. Taylor.

'A better book on the art of navigation down to Captain Cook's days has not been written in the English language.' (*Martner's Mirror*.)

This new edition contains an appendix by Joseph Needham, F.R.S., on the history of navigation in China. (Hollis & Carter, £2.50. Members £2.00 plus postage.)

The Use of Radar at Sea

A Handbook on Marine Radar. (Hollis & Carter, £3.50)

Observational Errors

An elementary account of the ideas behind the statistical theory of errors, by E. W. Anderson & J. B. Parker. (John Murray, 25 p)

The Geometrical Seaman

An illustrated work on early navigational instruments, by E. G. R. Taylor & M. W. Richey. (Hollis & Carter, £1.50)

The Mathematical Practitioners of Tudor and Stuart England

by E. G. R. Taylor.

(Cambridge University Press, £4.00
Members £3.00 plus postage.)

An account of the ideas, instruments and methods in navigation and surveying between 1485 and 1715 with lists of the mathematical practitioners with biographical notes and details of their work.

The Mathematical Practitioners of Hanoverian England

by E. G. R. Taylor.

(Cambridge University Press, £4.50
Members £3.37 plus postage.)

This book, a sequel to the earlier volume, takes the story up to 1840, by which time the independent mathematical practitioner had virtually disappeared, absorbed into the large firm or organization as a consequence of industrial and social change.

In the Wake of the Torrey Canyon: Reflections on a Disaster

by L. Oudet

An investigation of all the implications for shipping today of the great oil-spill of 1967. (Hollis & Carter, £1.00. Members 75p.)

Marconi complete naval communications

The Marconi comprehensive range of s.s.b/i.s.b naval communications equipment meets all present and foreseeable requirements for voice and automatic telegraphy.

The complete range conforms to Royal Naval standards of resistance to shock, vibration and climatic conditions, and has been NATO codified by the British Ministry of Defence. It is in wide use by the Royal Navy and in the modernization of twenty other navies.

Marconi Communication Systems Limited also has a complete range of communications

equipment available for shore stations; digital transmission, and airborne communications.

In addition the Company is able to assist naval departments and shipbuilders with the planning, fitting, testing and tuning of complete ship communications installations.

Marconi Radio and Space Division, designers and suppliers of h.f and l.f point-to-point systems, line-of-sight and tropospheric scatter microwave systems—part of the total systems capability of Marconi Communication Systems.

Marconi Communication Systems

Complete civil and military static and mobile communication systems
