

THE AUSTRALIAN MATHEMATICAL SOCIETY

<i>President:</i>	Professor N. JOSHI	School of Mathematics and Statistics The University of Sydney NSW 2006
<i>Secretary:</i>	Dr E. J. BILLINGTON	Department of Mathematics The University of Queensland Brisbane QLD 4072
<i>Treasurer:</i>	Dr A. HOWE	Mathematics Department Mathematical Sciences Institute The Australian National University Canberra ACT 0200

**Membership and correspondence:** Applications for membership, notices of changes of address or title or position, members' subscriptions and correspondence related to accounts should be sent to the Treasurer. All other correspondence should be sent to the Secretary.

**Subscriptions:** Four parts are planned for 2009. Subscription prices for 2009 are £209 (\$419 in USA, Canada and Mexico) which includes print and electronic access. The electronic-only access price for 2009 is £179 (\$358 in USA, Canada and Mexico). Single parts cost £57 (\$115 in USA, Canada and Mexico). Prices include delivery by air where appropriate. EU subscribers who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. Orders, which must be accompanied by payment, should be sent to a subscription agent, book-seller, or direct to the publishers: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU or, in the USA, Canada and Mexico, Cambridge University Press, Journals Fulfilment Department, 100 Brook Hill Drive, West Nyack, NY 10994-2133. Japanese prices are available from Kinokuniya Company Ltd, PO Box 55, Chitose Tokyo 156, Japan. Periodicals postage is paid at New York, NY and additional mailing offices. POSTMASTER: send address changes in USA, Canada and Mexico to *Bulletin of the Australian Mathematical Society* Cambridge University Press, Journals Fulfilment Department, 100 Brook Hill Drive, West Nyack, NY 10994-2133.

This journal is included in the Cambridge Journals Online service. Further information, and online access for subscribers, is available at <http://journals.cambridge.org/anz>

**Copying:** This journal is registered with the Copyright Clearance Centre, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are registered with the CCC may therefore copy materials beyond the limits permitted by sections 107 and 108 of US copyright law subject to payment to CCC of the per-copy fee of \$16.00. This consent does not extend to multiple copying for promotional and commercial purposes. Code 1446-1811/2009 \$16.00.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions. For all other use, permission should be sought from Cambridge or the American branch of Cambridge University Press.

Published by Cambridge University Press for the Australian Mathematical Publishing Association Incorporated. Printed in the United Kingdom at Bell & Bain Ltd, Glasgow.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information.

# Table of Contents

This special issue is dedicated to Dr Stephen White

<b>Preface to this special issue</b> <i>Burnell, J. &amp; Weir, G.</i>	i
<b>Numerical determination of critical conditions for thermal ignition</b> <i>Luo, W., Wake, G. C. &amp; Hawk, C. W.</i>	283
<b>Modelling sea ice growth</b> <i>McGuinness, M. J.</i>	306
<b>Reconsidering trigonometric integrators</b> <i>O'Neale, D. R. J. &amp; McLachlan, R. I.</i>	320
<b>Practical Runge–Kutta methods for scientific computation</b> <i>Butcher, J. C.</i>	333
<b>A mathematical model for the large-scale transport of heat and water in the Taupo Volcanic Zone of New Zealand</b> <i>Weir, G.</i>	343
<b>A model of ion transport in conjugated polymers</b> <i>Burnell, J.</i>	355
<b>Components and phases: modelling progressive hydrothermal eruptions</b> <i>McKibbin, R., Smith, T. A. &amp; Fullard, L.</i>	365
<b>Effective slip length of nanoscale mixed-slip surfaces</b> <i>Lund, N. J. &amp; Hendy, S. C.</i>	381
<b>Modelling the growth of zinc oxide nanostructures</b> <i>Mackay, J. R., White, S. P. &amp; Hendy, S. C.</i>	395
<b>An analytic solution for one-dimensional dissipational strain-gradient plasticity</b> <i>Young, R.</i>	407
<b>A conceptual model for the origins of geothermal and volcanic activity in the North Island of New Zealand</b> <i>McNabb, A.</i>	421
<b>Mathematical modelling of Wairakei geothermal field</b> <i>Grant, M. A.</i>	426
<b>Orthogonal functions and Zernike polynomials—a random variable interpretation</b> <i>Withers, C. S.</i>	435
