EUROPEAN POLITICAL SCIENCE REVIEW

"In one short year, the EPSR has established itself as one of the best outlets for innovative political research anywhere – not just in Europe, and not just about Europe. Its mixture of thoughtful essays and original research reports makes it a pleasure to read and learn from."

SIDNEY TARROW, CORNELL UNIVERSITY

Are you up to date with the original, wide-ranging and broad-minded articles published by EPSR?

If your library doesn't already have a subscription, you should encourage your librarian to subscribe so you, your colleagues and your students will all have access to this indispensable and stimulating source of new scholarship in all areas of political science.

Further information and an online library recommendation form can be found at the EPSR homepage: journals.cambridge.org/epsr

Economics & Philosophy

Editors

John A. Weymark, *Vanderbilt University, USA*

Richard Bradley, *London School of Economics, UK*

Fabienne Peter, *University of Warwick, UK*

Erik Schokkaert, *Katholieke Universiteit Leuven, Belgium*

Alex Voorhoeve, *London School of Economics, UK (Book Review Editor)*

The disciplines of economics and philosophy each possess their own special analytical methods, whose combination is powerful and fruitful. Each discipline can be enriched by the other. *Economics & Philosophy* aims to promote their mutual enrichment by publishing articles and book reviews in all areas linking these subjects. Topics include the methodology and epistemology of economics, the foundations of decision theory and game theory, the nature of rational choice in general, historical work on economics with a philosophical purpose, ethical issues in economics, the use of economic techniques in ethical theory, and many other subjects.

European Business Organization Law Review (EBOR)

Marketed and distributed for T.M.C. Asser Press

Editor

Rainer Kulms, Max Planck Institute, Hamburg, Germany

The *European Business Organization Law Review (EBOR)* is a leading European publication addressing all legal aspects of business organization. The journal is a platform for articles, case-notes and book reviews to stimulate scholarly debate and to reflect the speed of how developments in the field translate into substantive law. Relying on scholars, business people, lawyers, economists and other disciplines, and with an international editorial board, the journal looks at the whole range of problems relevant to business activities and the corresponding national, European Community and international legal rules.

British Journal of Political Science

Editors

Shaun Bowler, *University of California, Riverside, USA*

Robert E. Goodin, *Australian National University, Australia and University of Essex, UK*

Robert Johns, *University of Essex, UK*

René Lindstädt, *University of Essex, UK*

Hugh Ward, *University of Essex, UK*

The *British Journal of Political Science* (*BjPoS*) is a broadly based journal aiming to cover developments across a wide range of countries and specialisms. Contributions are drawn from all fields of political science (including political theory, political behaviour, public policy and international relations), and articles from scholars in related disciplines (sociology, social psychology, economics and philosophy) appear frequently. With a reputation established over 40 years of publication, the *BjPoS* is widely recognised as one of the premier journals in its field.

Legal Theory

Editors

Matthew D. Adler, *Duke University, USA*

Larry Alexander, *University of San Diego Law School, USA*

David O. Brink, *University of California, San Diego, USA*

Scott J. Shapiro, *Yale Law School, USA*

Legal Theory draws contributions not only from academic law, but from a wide range of related disciplines in the humanities and social sciences, including philosophy, political science, economics, history and sociology. Topics covered fall mainly into the broad categories of analytical and normative jurisprudence, doctrinal theory, policy analyses of legal doctrines and critical theories of law.

Journal of Pension Economics & Finance

Editors

Steven Haberman, *Cass Business School, UK*
Moshe Milevsky, *York University, Canada*
J. Michael Orszag, *Watson Wyatt, UK*

The *Journal of Pension Economics & Finance* (*JPEF*) is the only academic journal focusing on the economics and finance of pensions and retirement income. The ageing population, together with the shrinking workforce, heralds a growing pensions crisis, which has become a key public policy issue in developed countries and elsewhere. *JPEF* provides a valuable and influential forum for international debate in this area.

The journal publishes original research papers, covering a variety of topics, including pension fund management, the regulation of pensions, and pensions and labour markets.

JOURNAL OF INSTITUTIONAL ECONOMICS

SUBMISSION

All manuscripts must be submitted online via the website:

<http://mc.manuscriptcentral.com/joie>

Detailed instructions for submitting your manuscript online can be found at the submission website by clicking on the 'Instructions and Forms' link in the top right of the screen; and then clicking on the 'Author Submission Instructions' icon on the following page.

The Editor will acknowledge receipt of the manuscript, provide it with a manuscript reference number and assign it to reviewers. The reference number of the manuscript should be quoted in all correspondence with JOIE Office and Publisher.

ARTICLE

There must be no indication of the personal identity or institution of any author of the article within the article itself, or in the 'properties' of the electronic file. Normally, articles (including footnotes and references) must be no longer than 9,000 words. In special cases, such as an extended review or survey article, this limit may be extended to 12,000 words. A declaration of the total word count (including footnotes and references) must accompany or be within the article.

Papers with some formal content will be considered if it is fully explained for a general readership, the mathematics is consigned as much as possible to appendices, the assumptions have sufficient grounding in reality, and the paper enhances our understanding of past, present, or feasible socio-economic institutions. JOIE is not interested in the advancement of formal or econometric technique for their own sake.

The front page of the electronic file of the article should include the following information: the title; an abstract of the article of up to 150 words; the Journal of Economic Literature classification codes for the article (consisting of a single letter followed by two numeric digits, see www.aeaweb.org/journal/jel_class_system.html); and up to six key words or short phrases.

Footnotes should be kept to a minimum and the Harvard referencing system should be used.

Submission of a paper will be held to imply that it contains original unpublished work and is not being submitted for publication elsewhere.

The JOIE Editors will preliminarily assess all papers. A paper will be rejected at this first stage if it does not comply with the above guidelines, is evidently of insufficient academic quality or interest, or lies outside the scope of the journal. If a paper passes this preliminarily assessment, then it will be sent out to referees. The five Editors will make the final decision, taking account of the referee's reports.

If the article is accepted, the author will be asked to comply with the format and house style of JOIE, as exhibited in issues of the journal from June 2005.

AIMS

"Institutions are the stuff of social and economic life. Many influential organizations, including the World Bank, have recognized the importance of institutions for economic development. The Nobel Prize has been awarded to Ronald Coase, Douglass North, Gunnar Myrdal and Simon Kuznets for their pioneering work in institutional economics."

"The *Journal of Institutional Economics* is devoted to the study of the nature, role and evolution of institutions in the economy, including firms, states, markets, money, households and other vital institutions and organizations. It welcomes contributions by all schools of thought that can contribute to our understanding of the features, development and functions of real world economic institutions and organizations."

"Many economists regard the principle of scarcity as central. However, this principle is not generally extended to scarcity of human cognitive or calculative abilities: these are often assumed to be unlimited. Furthermore, social institutions are often assumed as given, freely available, or producible at insignificant cost. In contrast, institutional economics regards institutions as costly to produce, and sees human beings as reliant on social customs and institutions in order to make decisions. Institutional economics addresses the issues of learning and cognition, and their relationship with institutional structures, cultures, routines, and habits."

"The *Journal of Institutional Economics* is dedicated to the development of cutting edge research within this broad conception of institutional economics. It encompasses research in both the 'original' and 'new' traditions of institutional economics, from Gustav Schmoller, Thorstein Veblen, John R. Commons, Wesley Mitchell and Gunnar Myrdal, to Ronald Coase, Oliver Williamson, Douglass North and many others."

"The *Journal of Institutional Economics* promotes theoretical and empirical research that enhances our understanding of the nature, origin, role and evolution of socio-economic institutions. Ideas from many disciplines, such as anthropology, biology, geography, history, politics, psychology, philosophy, social theory and sociology, as well as economics itself, are important for this endeavor."

"Papers with some formal content will be considered if it is fully explained for a general readership, the mathematics is consigned as much as possible to appendices, the assumptions have sufficient grounding in reality, and the paper enhances our understanding of past, present, or feasible socio-economic institutions. The *Journal of Institutional Economics* is not interested in the advancement of formal or econometric technique for their own sake."
