I N D E X.

	PAGE
ALLARDICE, R. E.	
On some Theorems in the Theory of Numbers, . . .	16
On a Property of odd and even Polygons, . . .	22
On some Properties of the Quadrilateral, . . .	27
On a Problem in Permutations, . . .	64
Note on Menelaus's Theorem, . . .	92
 CAYLEY, Professor.	
Note on the Orthomorphic Transformation of a Circle into itself, . . .	91
 CHREE, CHARLES.	
On the Equations of Vortex Motion, with special reference to Polar Co-ordinates, . . .	43
 DOUGALL, JOHN.	
On a certain Expression for a Spherical Harmonic, with some Extensions, . . .	81
 ELLIOTT, Professor.	
On a Hydromechanical Theorem, . . .	69
On Rankine's Formula for Earth Pressure, . . .	77
 GIBSON, GEORGE A.	
Green's and allied Theorems: A Historical Sketch, . . .	2
 MACKAY, J. S.	
Some new Properties of the Triangle, . . .	5
Historical Notes on a Geometrical Problem and Theorem, . . .	93
 MORRISON, J. T.	
A Method of Teaching Electrostatics in School, . . .	89

	PAGE
OFFICE-BEARERS,	1
PINKERTON, R. H.	
Note on Normals to Conics,	19
SPRAGUE, T. B.	
On the possible non-linear Arrangements of Eight Men on a Chess-Board,	30
STEGGALL, Professor.	
A Special Case of Three-Bar Motion,	5
TAIT, Professor.	
Note on a Curious Operational Theorem,	21
An Apparatus which gives the same Curve as a Glissette, either of a Hyperbola or an Ellipse, [Title]	29
Quaternion Synopsis of Hertz' View of the Electro- dynamical Equations, [Title]	92
THOMSON, Professor.	
On the Moduluses of Elasticity of an Elastic Solid according to Boscovich's Theory,	29

Note.—The Committee desire to express their indebtedness to T. B. SPRAGUE, Esq., for a liberal donation, which has enabled them to print the figures to Professor Steggall's paper.
