ISSUES IN AMERICAN ECONOMIC HISTORY

Selected Readings

Edited by Gerald D. Nash, The University of New Mexico

This well-organized text, based on a "problems" approach to the study of economic history, focuses upon the theme of economic expansion. Each chapter introduces a provocative issue relating to the historical development of factors responsible for economic growth. Each issue or problem is expanded in the works of two major writers of differing viewpoints, who give conflicting assessments of the influence that forces such as population, labor, government policies, technology, entrepreneurship, and crises have had upon the evolution of the American economy. The contrasting views serve as a basis for stimulating class discussions. 566 pages 1964 paper \$4.95

STUDIES IN ECONOMICS

General Editor: David E. Novack, Vassar College

Each volume in this paperbound series treats with depth and flexibility a vital economic issue subject to debate and argument. Each offers the student a wide range of primary sources, that permit a fresh view of basic materials, and secondary writings by well-known authorities. The carefully-chosen editor, a specialist on the topic, provides introductions, comments, summaries, and an annotated bibliography.

The Peasant in Nineteenth-Century Russia

Edited and with an Introduction by Wayne S. Vucinich. The eight studies collected here comprise the best one-volume picture of the nineteenth-century Russian peasantry now available in English. They also strikingly demonstrate the centrality of the peasant in the entire institutional and cultural history of Russia. Nicholas Riasanovsky's Conclusion summarizes the findings of the volume. \$8.50

Capitalism and Nationalism in Prewar Japan

**THE IDEOLOGY OF THE BUSINESS ELITE,
1868-1941**

Byron K. Marshall. A study of how the new elite of Japanese business leaders justified their acquisition of considerable political as well as economic power as Japan became more highly industrialized after the Meiji Restoration. Includes a discussion of the influence of the West on the formation of business ideology, and business views on government economic controls. \$5.75

Hutterian Brethren

**THE AGRICULTURAL ECONOMY AND
SOCIAL ORGANIZATION OF A
COMMUNAL PEOPLE**

John W. Bennett. An Anabaptist sect that practices strict communal living based on religious principles is here studied through an examination of six colonies in southwestern Saskatchewan. The author's objectives are to show how one group found their land, established their agricultural economy, and worked out relations with the local inhabitants, and to discover why they have been so successful.
