Nearly integral homomorphisms of commutative rings David E. Dobbs	1
Non commutative convolution measure algebras with no proper L-ideals Sahl Fadul Albar	13
Decay estimates for some nonlinear second order ordinary differential equations Mitsuhiro Nakao	25
Bounded measurable simultaneous monotone approximation Salem M.A. Sahab	37
On Witt's dimension formula for free Lie algebras and a theorem of Klyachko D. Blessenohl and H. Laue	49
Identities for existence varieties of regular semigroups T.E. Hall	59
Data types in distributive categories R.F.C. Walters	79
A note on connected submetaLindelöf spaces Nobuyuki Kemoto	83
An example on composite differentiable functions in infinite dimensions J.A. Jaramillo	91
Degenerate critical points, homotopy indices and morse inequalities III E.N. Dancer	97
A note on the fixed subring of an FPF ring John Clark	109
Approximating fixed points by Ishikawa iterates M. Maiti and M.K. Ghosh	113
On nilpotent and polycyclic groups Robert J. Hursey	119
A generalisation of Mackey's theorem and the uniform boundedness principle Charles Swartz	123
Convergence in neighbourhood lattices Frank P. Prokop	129
Generalised Hölderian functions S. De Sarkar and S. Panda	147
Chen's problem on mixed foliate CR-submanifolds Mohammed Ali Bashir	157

Information for Authors.

The *Bulletin* of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Timely expository articles are also welcomed.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after a careful evaluation by the Editor and an Associate Editor or other expert in the field. As even minor revisions are generally not permitted, authors should read carefully all the details listed below and on the inside back cover. For a paper to be acceptable for publication, not only should it contain new and interesting results but also

- (i) the exposition should be clear and attractive, and
- (ii) the manuscript should be in publishable form, without revision.

Authors should submit *three* clean, high quality copies to

The Editor, Bulletin of the Australian Mathematical Society,
Department of Mathematics, University of Queensland,
St. Lucia, Queensland, 4067, Australia

Unless requested at the time, material submitted to the *Bulletin* will usually not be returned. Note that each paper submitted must include an abstract and one or more classification numbers following the 1980 *Mathematics Subject Classification*. (1985 Revision)

Abstracts of Ph.D. Theses..

The *Bulletin* endeavours to publish abstracts of all accepted Australasian Ph.D. theses in mathematics. One restriction, however, is that the abstract must be received by the Editor within 6 months of the degree being approved.
