

FINANCIAL SUPPORT FOR MEMOIR SERIES

Publication of the Memoirs of The Paleontological Society is supported from resources outside the regular publication budget of the Society for the *Journal of Paleontology*. Authors and institutions desiring to use the opportunity of publishing major paleontological works as part of the Memoir Series of the Society are expected to raise sufficient resources to cover the actual costs of reproduction which currently is \$110.00 a printed page. Individuals wishing to support the Memoir Series generally may contribute to an appropriate fund of the Society for that purpose through the current Treasurer of the Society whose address is listed on the first pages of every issue of the *Journal*. Acceptability of manuscripts for the Memoir Series is judged on the customary basis of the review process used for articles in the *Journal*.
