THE ROYAL INSTITUTE OF NAVIGATION
AT THE ROYAL GEOGRAPHICAL SOCIETY
1 KENSINGTON GORE LONDON SW7 2AT

SCOTTISH ACADEMIC PRESS LTD., 33 MONTGOMERY STREET, EDINBURGH EH7 5JX

THE ROYAL INSTITUTE OF NAVIGATION

Patron

H.R.H. THE PRINCE PHILIP DUKE OF EDINBURGH, K.G., K.T., O.M.

OFFICERS AND COUNCIL 1976-7

President

Sir Edward Fennessy, C.B.E.

Vice-Presidents

Captain B. J. Calvert

Mrs. Mary Pera

Honorary Treasurer

Lieut-Comdr. R. B. Richardson

Chairman of the Technical Committee

Captain R. Maybourn

Chairman of the Membership and Fellowship Committee

Rear Admiral D. W. Haslam, O.B.E.

Other Members of Council

V. W. Attwool

Prof. A. N. Black

Captain G. Dudley

Captain R. K. N. Emden, D.S.C.

Miss A. M. Ferrar

Dr. J. F. Kemp

S. Ratcliffe

Group Captain H. L. Sheppard, R.A.F.

F. S. Stringer

Lieut-Comdr. D. W. Waters

Director M. W. Richey, M.B.E.

The Journal of Navigation

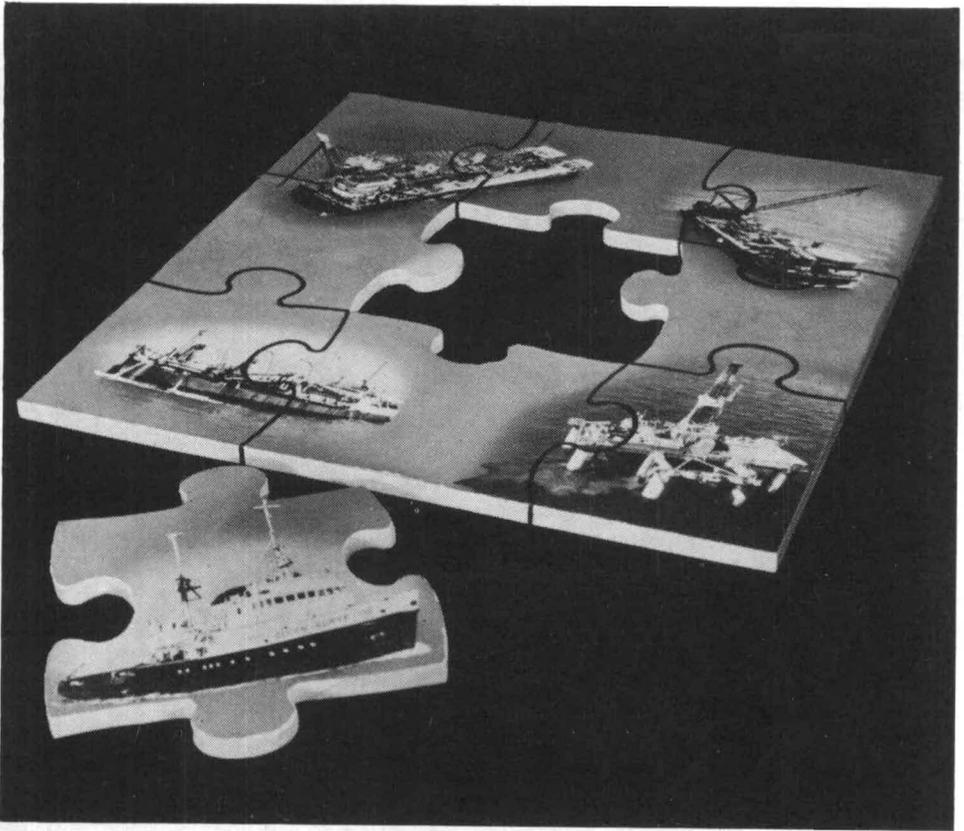

The *Journal* is published quarterly by the Institute and is edited by M. W. RICHEY. It contains original papers contributing to the science of navigation, including those presented at meetings of the Institute together with the ensuing discussion. In addition the *Journal* includes a record of current navigational work, reviews of important books, and other matters of concern to those interested in navigation. The views expressed in the *Journal* are not necessarily those of the Institute, or of any organization or department to which the authors may belong. Crown Copyright may be reserved.

The *Journal* is issued free to all members of the Institute. It is sold to the public at four pounds fifty per copy or, by subscription, at thirteen pounds fifty per annum (plus postage) and may be obtained through all booksellers and Scottish Academic Press Ltd., 33 Montgomery Street, Edinburgh EH7 5JX. Back numbers dated two years prior to the current volume may be obtained from William Dawson & Sons, Ltd., (Back Issues Department), Cannon House, Folkestone, Kent.

Enquiries for advertising space should be addressed to the Institute offices.

The postal address of the Institute is The Royal Institute of Navigation, at The Royal Geographical Society, 1 Kensington Gore, London SW7 2AT. (Telephone: 01-589 5021).

Volumes of the *Journal* can be bound for three pounds seventy five including postage. The parts should be sent, together with the appropriate remittance, to Fowler-Wilson Bookbinders, Unit 4, Middlefield Industrial Estate, Sandy, Beds.

We're great at putting everything in its proper place—precisely.

Because positioning is our business. And because we've been doing it for a long time now. For over 30 years, we have been steadily developing and improving electronic positioning aids.

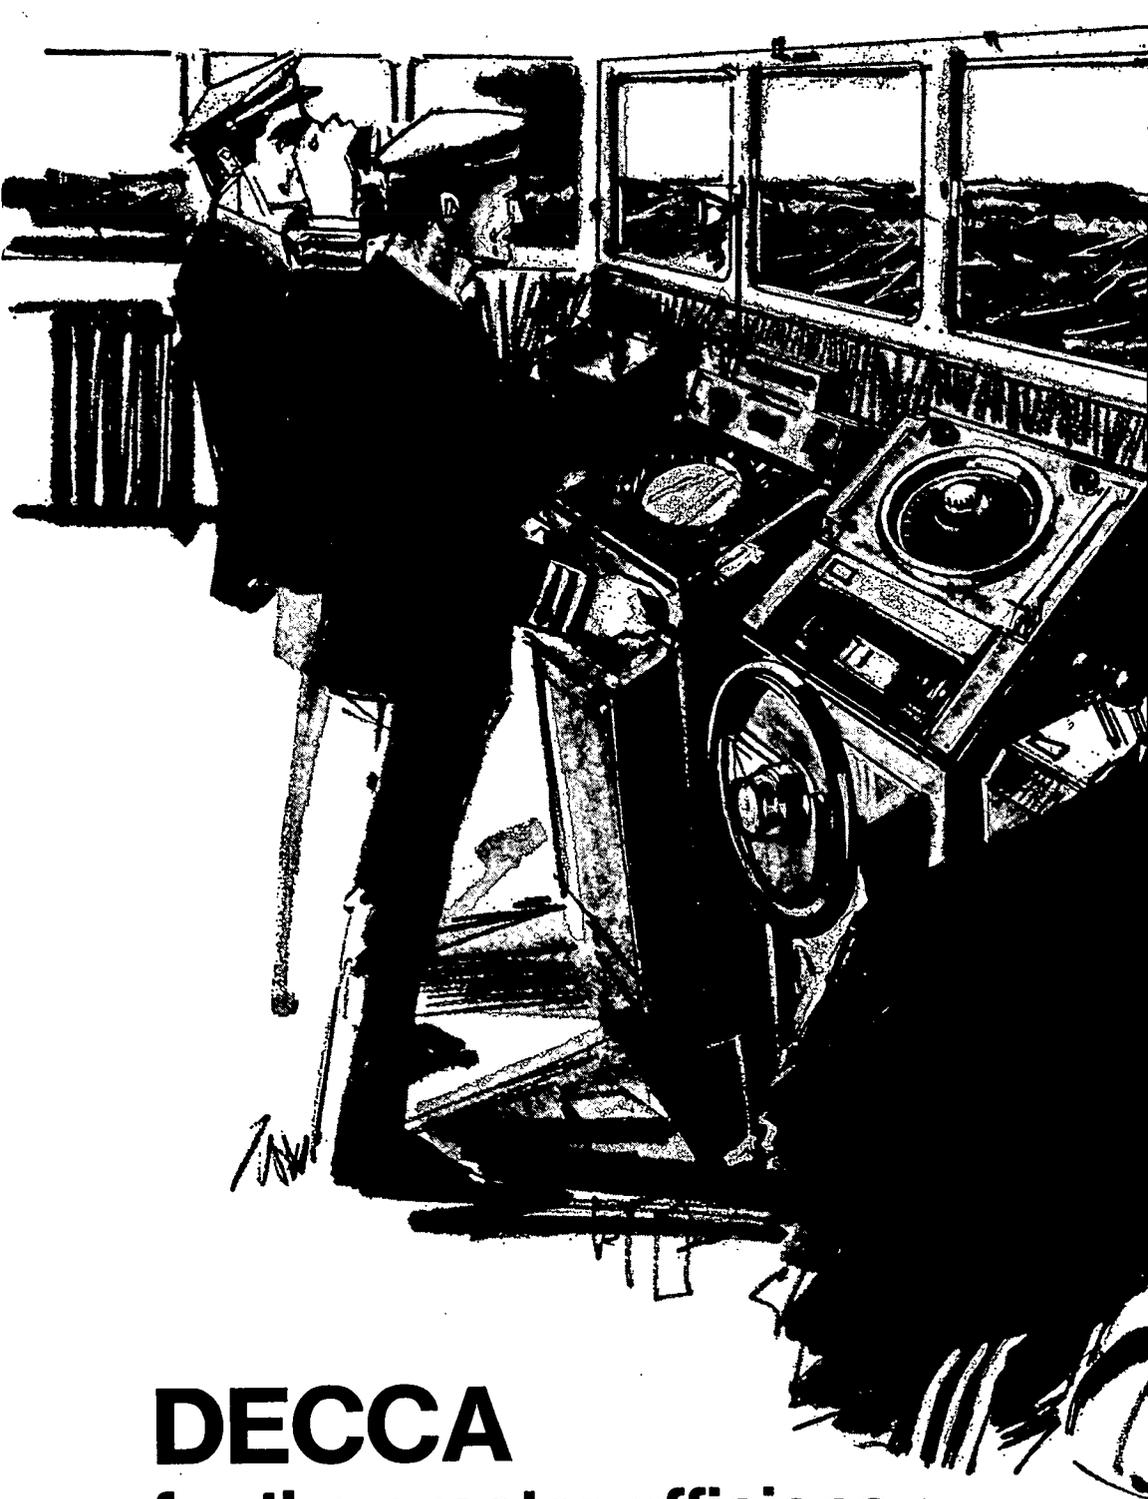

Today, as the Decca Survey Group of companies, we are strategically stationed to provide a comprehensive survey service anywhere on demand. Precisely positioning rigs and platforms in the search for oil and minerals offshore. Undertaking the vital survey work associated with dredging and port and harbour maintenance and

development. And surveying the routes for pipes and cables in the seas and oceans of the world.

We have the most experienced personnel. The most comprehensively fitted vessels. And the most advanced electronic equipment—including acoustic and satellite positioning aids.

Whenever you need precise positioning services, you need us. The Decca Survey Group. In positioning, we're *precisely* the people who matter.

DECCA

**for the greater efficiency
and safety of ships at sea**

THE DECCA NAVIGATOR COMPANY LIMITED. DECCA RADAR LIMITED. LONDON

'Predictor II' doesn't just see –

it remembers and computes

A computer memory enables 'Predictor II' to store complete radar pictures for periods up to six minutes, even when operating as a conventional radar. When you press the button, 'Predictor II' recalls successive *past* radar situations, plotting with infallible accuracy the true or relative tracks followed by every target on the screen up to the present instant.

If you decide to alter course or speed and propose your alteration to 'Predictor II', it will instantly compute the new triangle of velocities for every target on the screen, and display the *impending* radar situation *before* you alter.

'Predictor II' has all the advanced facilities of earlier 'Predictors' – and the latest developments in computer circuit technology.

'PREDICTOR II'
the most advanced
marine radar in the world.

Marconi Marine radar

Chelmsford Essex England

Tel (0245) 61701 Telex 99228 · A GEC-Marconi Electronics Company

“The need for automatic synchronisation is clear . . . An automatically synchronised receiver is mandatory under these conditions and highly preferred under all conditions.” (C.I.R.M. Report No. 85/75)

Marconi Marine's ALPHA OMEGA with fully automatic synchronisation

Alone among Omega receivers, Marconi Marine's Alpha Omega provides four essential features that 'economy' receivers don't provide – *four essentials for safe, reliable and accurate navigation.*

- 1** Fully automatic synchronisation to the Omega format on switch-on. No manual alignment is necessary.
- 2** Automatic and continuous tracking of *all* Omega transmissions within range, allowing instant selection and display of the maximum possible number of LOPs.
- 3** Two-frequency operation providing automatic, continuous check on lane count.
- 4** Individual propagation corrections easily fed in, and total correction automatically calculated and applied. No arithmetic needed.

Please ask for details of **ALPHA OMEGA** – the high-accuracy, high-reliability Omega receiver from Marconi Marine.

THE INTERNATIONAL HYDROGRAPHIC REVIEW

Half-yearly, 160 pages (approx), 18×27 cm. Price 50 French francs.*

Among the papers of navigational interest in the number of
January 1977 are :

- Consideration of meteorological conditions when determining the navigational depth over a sandwave field (D. N. LANGHORNE)
- Towards a coordinated international radio navigational warning system (H. SCHUMANN)
- Doppler satellite positioning of offshore structures (L. D. HOTHEM, W. E. STRANGE)
- The Admiralty method of tidal prediction, N.P. 159 (N. C. GLEN)
- The development of the mariner's chart (C. H. COTTER)

PUBLISHED BY THE

INTERNATIONAL HYDROGRAPHIC BUREAU

Avenue Président J. F. Kennedy, Monte-Carlo, Monaco

The Bureau also publishes monthly

THE INTERNATIONAL HYDROGRAPHIC BULLETIN

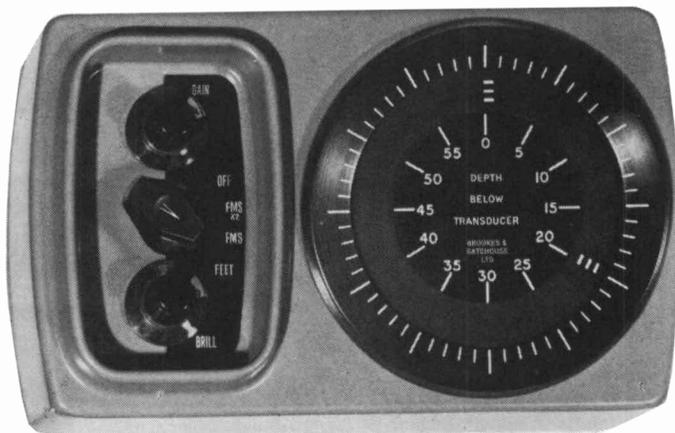

A bi-lingual journal—English and French—giving news of hydrographic activities worldwide. Lists in detail all new charts published by Member States of the International Hydrographic Organization, and contains an extensive monthly bibliography on Oceanography, Navigation, etc.

Approx. 30 pages, 21×30 cm, 6 francs per copy*.

Yearly subscription : 60 francs.

*30% reductions for naval & merchant marine officers of IHO Member States ordering direct from the Bureau.

Introducing the new HECTA echo sounder Model M200/F120

This instrument although no larger than its predecessors has ten times their transmitted power and provides accurate soundings in

depths of 200 metres or 120 fathoms. New filtering techniques make

it virtually immune from electrical and acoustic interference.

‘NAVIGATION’

NAVIGATION (Paris), the quarterly Journal of the French Institute of Navigation, is available to Members of the Institute at the preferential subscription rate of £8.00 per annum. The October 1976 issue contains the following papers

I. *LES NOUVEAUTÉS TECHNIQUES*

Systemes intégrés de communication, de navigation et d'identification en navigation aérienne par D. COULMY

Systeme intégré C.N.I. en navigation aérienne par L. MILOSEVIC

Le sylosat C. système de localisation par satellites par P. LEGRIS (C.S.E.E.)

Étude de la précision d'un récepteur de navigation MAGNAVOX par W. M. FIETZ

II. *CHRONIQUE DU NAVIGANT—*

Systemes de balisage maritime

III. *L'HISTOIRE & LA NAVIGATION—*

Historique de la déviation du compas par M. de BROSSARD

Navigation et "parlez matelot" par P. SIZAIRE

La CAPITANE par Claude FARRÈRE

Navigation des tahitiens d'autrefois par le Commandant P. JOURDAIN

IV. *INFORMATIONS—*

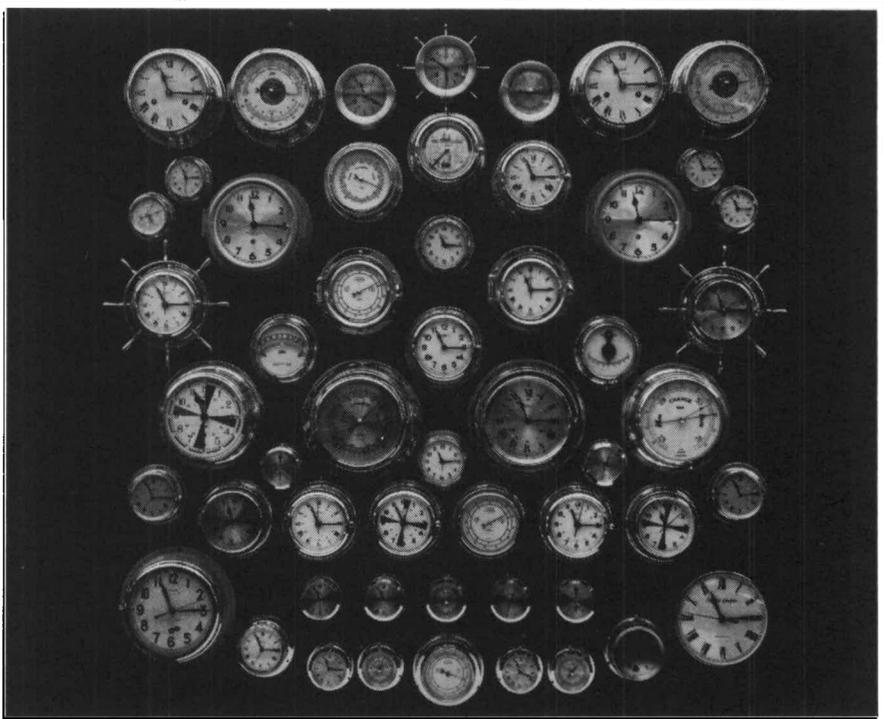

V. *CHRONIQUE DES LIVRES & REVUES—*

CLOCKS AND BAROMETERS FROM THE WORLD'S LEADING MAKERS

At Potter's you will always find a large and varied selection of both Clocks and Barometers from the World's finest makers.

All are displayed to make your selection both easy and enjoyable and all are clearly priced.

When faced with the problem of selecting a gift or presentation, visit Potter's where – apart from clocks and barometers – you will find a wide range of watches, binoculars, sextants and all things nautical at prices that will suit you.

Institute Notices

SUBSCRIPTIONS

From 1 July 1977, in accordance with the amendment to By-law 9 approved at the Annual General Meeting on 27 October 1976, subscriptions to the Institute will be at the following rates:

Fellows	Twelve pounds (£12)
Members	Twelve pounds (£12)
Student Members	Five pounds (£5)
Corporate Members	One hundred pounds (£100)

Members will shortly be invited to pay their subscriptions by direct debit authority rather than Banker's Order. Full details will be circulated to all Members.

NOMINATIONS FOR COUNCIL

Members are reminded that nominations made under By-law 28 (of Members to be submitted to ballot for election as Officers and other members of Council) should be sent in before 15 April.

PUBLICATIONS

The Use of Radar at Sea, the Institute's handbook on marine radar dated 1976, has now been published and is available from Hollis & Carter at £5.25 net.

MEETINGS

SAFETY OF NAVIGATION UNDER SAIL. A joint meeting with the Royal Ocean Racing Club, to be held at 1430 on Tuesday, 15 February 1977 at the Royal Aeronautical Society, 4 Hamilton Place, London W.1. The problems to be discussed include the navigational requirements of ocean racing, with particular reference to safety; collision avoidance and the implications for sailing craft of the new collision regulations; sailing in the vicinity of traffic separation areas; singlehanded sailing; radar reflectors and the use of transponders; the value of weather forecasting; navigation lights, and radio aids for small craft.

Contributors will include R. N. B. Gatehouse, Captain R. K. N. Emden, Alban Harrison, Bernard Hayman, Captain J. F. Kemp, Robin Knox-Johnston, Captain C. Phelan, Michael Richey and Alan Watts. Mrs Mary Pera will be in the Chair.

Tickets may be obtained from the Royal Ocean Racing Club, 20 St. James's Place, London S.W.1 or from the Royal Institute of Navigation.
