Cardiology in the Young © 2002 Greenwich Medical Media Ltd., ISSN 1047-9511 is published bi-monthly

Subscription information: Volume 12 (6 issues) will appear in 2002. Correspondence concerning subscriptions should be addressed to: Cardiology in the Young, Greenwich Medical Media Ltd, Subscriptions, 137 Euston Road, London NW1 2AA, UK. Tel: +44 (0) 20 7388 5444; Fax: +44 (0) 20 7383 5445; email: gm@greenwich-medical.co.uk. The subscription rate for 2002 Volume 12 (6 issues) is: Individual rate £215 (Europe/Rest of world) or US\$340. Institutional Rate: £340 (Europe/Rest of world) or US\$535. All prices inclusive of postage. Cheques should be made payable to Royal Society of Medicine Press Ltd. Copyright: The submission of a manuscript implies the following: (a) that the work described has not been published before, except in the form of an abstract or as part of a published lecture, review, or thesis; (b) that it is not under consideration for publication elsewhere; (c) that all co-authors approve its publication; (d) that its publication is approved by the responsible authorities at the institute where the work has been carried out; (e) that when the manuscript is accepted for publication, the authors agree to the automatic transfer of the copyright to the publisher; (f) that the manuscript will not be published elsewhere in any language without the consent of the copyright holders, and (g) that written permission of the copyright holder is obtained by the authors for material used from other copyrighted sources. All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in video disks, etc., without first obtaining written permission from the publishers. The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations. While the advice and information in this journal are believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein. Greenwich Medical Media Ltd., publishes advertisements in this journal while relying on the responsibility of the advertiser to comply with all legal requirements relating to the marketing and sale of products or services advertised. Greenwich Medical Media Ltd. and the editors are not responsible for claims made in the advertisements published in the journal. The appearance of advertisements in Greenwich Medical Media Ltd. publications does not constitute endorsement, implied or intended, of the product advertised or the claims made for it by the advertiser. Photocopies may not be made for personal or in-house use beyond the limitations stipulated under US Copyright Law. Advertisements: For advertisement rates and information on advertisement copy contact Cardiology in the Young, Advertising Dept., Greenwich Medical Media Ltd., 137 Euston Road, London NW1 2AA, UK. Tel: +44(0)20 7388 5444; Fax: +44(0)20 7383 5445. Change of address: Please notify the Subscription Department. Send new address and postal code, and the address label from a current issue to Publications Subscription Dept, Cardiology in the Young, PO Box 1079, Wallington, Surrey SM5 4SQ, UK. Tel: +44(0)208 669 5561; Fax: +44(0)208 669 5891. Printing: Cardiology in the Young (ISSN 1047-9511) is printed bi-monthly in 2002 by Latimer Trend, Plymouth.

## Instructions to Authors

---

### Editorial policies

*Cardiology in the Young* is devoted to cardiovascular issues affecting the young and the older patient with the sequels of heart disease acquired in childhood. Submission of both basic research and clinical papers is encouraged. Articles on fundamental principles will also be considered for publication. Reviews on recent developments are welcome. The journal serves the interest of all professionals concerned with these topics. By design, the journal is international and multidisciplinary in its approach, and the members of the Editorial Board take an active role in the journal's mission. Prospective authors are encouraged to consult with the editors and members of the Editorial Board with any inquiries. The editors encourage the submission of articles from developing countries.

Articles should be concerned with original research not published previously and not being considered for publication elsewhere. Submission of a manuscript to this journal gives the publisher the right to publish that paper if it is accepted, and the copyright of the manuscript becomes property of the publisher. Manuscripts may be edited to improve clarity and expression.

Authors must ensure that their studies comply with appropriate institutional and national guidelines for ethical matters. Specifically, by submission of a manuscript, the authors are responsible for compliance with guidelines and regulations of the authors' institution and all appropriate governmental agencies.

Articles including human subjects must include a statement that informed consent was obtained and that the study was reviewed and approved by the institution's committee on human experimentation. Articles including animal experimentation must conform to the principles of the American Physiological Society, and a statement acknowledging conformation to these standards must be included in the *Materials and methods* section of the manuscript. Authors are also requested to identify possible conflicts of interest, especially as it relates to commercial sponsorship or equity holdings.

### Language

The language of the journal is English, but acceptance of a manuscript will reflect scientific content rather than grammatical style. The editors undertake

to facilitate the publication of papers from those authors whose native language is not English.

### Mail

Mail all editorial material to:  
Professor Robert H. Anderson  
Editor-in-Chief  
Cardiac Unit  
Institute of Child Health  
University College London  
30 Guilford Street  
London WC1N 1EH  
Tel: +44 (0)20 7905 2295  
Fax: +44 (0)20 7905 2324  
E-mail: r.anderson@ich.ucl.ac.uk

Send all material outside continental Europe by air mail or express mail.

### Manuscripts

Manuscripts should be submitted in three complete copies which include at least three complete sets of figures. Type all pages with double-spacing and wide margins on all sides of the paper. Divide the manuscript into the following sections: Title Page, Abstract, Keywords (3–6), Introduction, Materials and methods, Results, Discussion, Acknowledgements, References, Tables, Figure legends and Figures. Please include a computer disk with appropriate file(s).

#### *Electronic submission*

The journal encourages submission of articles electronically, but please also submit the manuscript by post by following the instructions above. Submit the manuscript electronically (preferably Word for Windows) to: r.Anderson@ich.ucl.ac.uk. It is easier for the editors to make adjustments to figures if you use Microsoft PowerPoint or Word for Windows. Photographs can be in PowerPoint or as TIFF files, but you must make sure that the quality (resolution) of your illustrations is high (300dpi) to allow satisfactory reproduction.

#### *Submission letter*

A submission letter is required and must include the title of the manuscript, a list of all authors, signatures of all authors, and identification of the corresponding author. Statements must be included that acknowledge 1) that all authors have read the manuscript,

have approved the manuscript, and accept responsibility for its contents, 2) that no part of the manuscript has been published previously or is under editorial review at present, 3) any potential or real conflicts of interest exist, and 4) that the authors transfer copyright to the publisher of *Cardiology in the Young*. The author is encouraged to submit the names and addresses of potential reviewers with special expertise in evaluating the manuscript.

The author should send with the submission letter, written permission from the copyright holder of any material published previously, such as a figure used in a review article.

### *Authorship*

Authorship should be assumed only by those workers who have contributed materially to the work and its report, and who accept the responsibility for the accuracy of the concepts expressed. Colleagues who have otherwise assisted or collaborated should be recognized in the section for acknowledgements. An excellent guide to authorship is given by the Style Manual Committee of the Council of Biology Editors, and the editors encourage consultation with this source.

### *Style*

Do not use abbreviations. Headlines and subheadings should be liberally employed in the methods, results, and discussion sections. Use short paragraphs whenever possible. The authors should strive for clarity of expression, avoiding, in particular, the use of jargon. Authors should also avoid conventions such as Group 1, Group 2, and so on, using descriptive titles rather than alphanumeric codes.

### *Title page*

The title page should include a descriptive title, a running head title not to exceed 50 characters, authors' complete names, academic addresses, corresponding author (with full address, telephone and fax numbers, and E-mail address), keywords (3–6 for indexing purposes), and all sources of financial support, including grants from non-profit organizations and/or any commercial support.

### *Abstract*

The Abstract should be no more than 250 words and should include statements identifying relevant methods and results justifying publication. Do not use abbreviations.

### *Introduction*

The Introduction should be brief and set out the purposes for which the study has been performed. It should not include an extensive review of the literature.

### *Materials and methods*

The Materials and methods should be sufficiently detailed so that readers and reviewers can understand precisely what has been done without studying the references directly. The description may be abbreviated when well-accepted techniques are used with appropriate reference to previously published methods. Statements confirming conformation to institutional and governmental review of the experimental protocol (see above in the Editorial Policies section) should be included here.

### *Results*

The results should be presented precisely. Reference to tables and figures, to the extent that they contribute substantively to help the reader understand clearly the relevant positive and negative findings, is encouraged.

Keep discussion of their importance to a minimum in this section of the manuscript.

### *Discussion*

The Discussion should relate directly to the study being reported. The Discussion should interpret the results, should describe the relevance of the results, and should include a discussion of the limitations of the study. Do not include a general review of the topic.

### *Acknowledgements*

Acknowledgements should follow the discussion.

### *References*

References should be numbered consecutively (in superscript) as they appear in the text. Type the reference list with double-spacing on a separate sheet. References (using Index Medicus abbreviations) should appear in the style as demonstrated below. **Please note that all authors should be listed.** Examples:

1. Redington AN, Rigby ML, Oldershaw P, Gibson DG, Shinebotirne EA. Right ventricular function 10 years after the Mustard operation for transposition of the great arteries: analysis of size, shape, and wall motion. *Br Heart J* 1989; 62: 455–461.
2. Zuberbuhler JR. *Clinical Diagnosis in Pediatric Cardiology*. Churchill Livingstone, New York, 1981.
3. Frantz EG. Adult respiratory distress syndrome in children. In: Harried HS, Jr (ed.). *Pediatric Pulmonary Heart Disease*. Little, Brown, Boston, 1990, pp 315–324.

### *Tables*

Tables should follow the style as demonstrated in issues to date, and be essential to the understanding of the text. Tables should have short descriptive titles and should be numbered (1, 2, 3 etc.) as they appear sequentially in the text. If only one table is included, it should be referred to as Table. Submit each table on a separate sheet of paper. All abbreviations and symbols should be defined in a footnote below the table.

### Figures

Figures must be submitted in triplicate and be suitable for high-quality reproduction. Figures will be returned if failing to meet this standard with subsequent delay to publication.

Glossy photographs should be submitted in standard formats with inclusion of magnification reference when appropriate. Colour illustrations will be accepted if appropriate and should be submitted as a transparency; however, the author is encouraged to discuss the justification for the use of a colour illustration with the editor.

Line drawings should be original and submitted as glossy photographs of high resolution.

All figures can also be submitted in high-resolution (at least 300 dpi) electronic formats such as TIFF, JPEG, PDF etc.

Legends for Figures should be typed, with double-spacing, on a separate sheet and should include description of all symbols and abbreviations. Abbreviations should be descriptive rather than alphanumeric, as discussed previously.

### Case Reports

Case Reports which add important new information will be published as Brief Reports. Articles published in this section should have no more than three authors, 1,000 words, an abstract (of about 60 words), 3–6 key words, two figures or tables, and 10 references.

### Editorials and Letters to the Editor

Readers are encouraged to write about any topic that relates to cardiology in the young. Such letters will appear in *Letters to the Editor*. They should be no longer than 500 words. Editorials are written on invitation but unsolicited articles of approximately 1,500 words which may have particular topical interest will be welcomed for consideration.

### Reviews

Reviews of recent developments are welcome. Authors are encouraged to contact the editor to determine the appropriateness for inclusion.

### Images in Congenital Heart Disease

Definitive, unique, or extraordinary pictures of any aspect of congenital heart disease will be presented with an accompanying legend of not more than 250 words (one double-spaced typewritten page). A maximum of three authors and one reference may be included. Instructional value and artistic merit will be considered in addition to scientific import and clinical relevance.

### Reprints

Orders for reprints of articles will be sent to the corresponding author with the proofs. If you do not receive the relevant form please write to or call the Journals Publisher, Gavin Jamieson as soon as you receive your proofs: Greenwich Medical Media Ltd., 137 Euston Road, 4th Floor, London NW1 2AA, UK. Tel: (+44) (0)207 388 5444; Fax: (+44) (0)20 7383 5445; E-mail: gavinj@greenwich-medical.co.uk

### Permission

Requests for permission to reproduce any material originally published in *Cardiology in the Young* should be sent to Greenwich Medical Media Ltd., 137 Euston Road, 4th Floor, London NW1 2AA, UK. Tel: (+44) (0)20 7388 5444; Fax: (+44) (0)20 7383 5445.

### Announcements

Meetings and courses will be announced in each Issue. Refer to the Announcements Section for appropriate guidelines. Course directors should send information about educational events to Greenwich Medical Media Ltd., 137 Euston Road, 4th Floor, London NW1 2AA, UK. Tel: (+44) (0)20 7388 5444; Fax: (+44) (0)20 7383 5445.

### Page Changes

Page changes will not be made once proofs are prepared for publication.

Articles not conforming to these instructions will be returned to the corresponding author for correction, and will delay review and publication.

### Checklist

- Submission letter with four statements
- Three copies of the entire manuscript
- Title page with running head, names, degrees, affiliations, corresponding author address, telephone number, facsimile number, keywords, and sponsorship
- Abstract (double-spaced)
- Article in proper sequence (double-spaced)
- References (double-spaced) (**inclusive of all authors**) and beginning on a separate page.
- Tables, each on a separate page  
*Note: the Manuscript will be returned if not in proper form.*
- Figure Legends (double-spaced) beginning on a separate page
- Figures (three sets of glossy prints)
- Written permission if previously published
- Computer disk with word processing program listed (preferably MS Word)
