

# The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

WALTER HOWARTH

WITH THE ASSISTANCE OF

G. H. BATEMAN      R. G. MACBETH      V. E. NEGUS  
R. SCOTT STEVENSON      J. F. SIMPSON

1. Original Articles are accepted on the condition that they have not been published elsewhere.
2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.
3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked, and no additional matter added.
4. Blocks illustrating articles are normally paid for by the *Journal*. Authors may, however, be required at the Editor's discretion, to contribute towards the cost of these in cases where this is particularly heavy.
5. Orders for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied.
6. Authors of original communications on Oto-Laryngology in other journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.
7. Editorial communications may be addressed to THE EDITOR, *Journal of Laryngology*, c/o HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.
8. The annual subscription commencing with the January, 1950 issue is three guineas sterling, post free, and is payable in advance.
9. Single copies will be on sale at 7s. 6d. each; copies of parts up to Vol. LXIII may be purchased at 4s. each.
10. All subscriptions, advertising and business communications should be sent to the publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

#### *United States of America*

Orders for this *Journal* may be sent either through a local bookseller, or to MESSRS. G. E. STECHERT & Co., 31-33 East 10th Street, New York, or they may be sent direct to the publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2, England.

# THE AMPLIVOX AUDIOMETER

## *The Basic Instrument of Modern Otology*

### **NEW TESTS NOW POSSIBLE**

Speech-loss measurement in decibels now obtainable through dynamic microphone and speech input meter.

Loudness balance control gives measurement of the recruitment factor.

Input for group-test equipment and gramophone.

### **CONSISTENT ACCURACY OF RESULTS**

Eleven exact test frequencies 125-12,000 c.p.s.

Voltage compensation ensures that signal intensity does not vary should mains voltage do so.

### **CALIBRATED MASKING TONE**

Masking intensity varies equally with normal hearing acuity over range 125-4,000 c.p.s., permitting accurate masking control. Calibrated in decibels.

### **SIMPLICITY OF OPERATION**

Twin matched headphones (on double headband) for all air conduction tests; bone conductor on single headband, or interchangeable with one 'phone.

Hearing Loss dial calibrated in 5 dB steps from minus 10 dB to plus 100 dB.

Same figures on dial are read for air and bone conduction, and for all frequencies.

*Full details are available from the manufacturer, who will gladly arrange demonstrations, if required.*

**PRESCRIBE THE EASY EFFECTIVE METHOD**

When spraying, the patient can hold his head in a natural position, yet the solution spreads throughout the nasal cavity, assuring thorough treatment. Effective dropper-application, on the other hand, requires a complicated posture technique which patients are apt to neglect in home treatment.

**DROPPER ?**

**DeVilbiss  
ATOMIZERS**

**ATOMIZER ?**

These illustrations, which are based on X-ray research, clearly demonstrate the advantages of the atomizer as compared with the dropper

The **AEROGRAPH Co., Ltd., Lower Sydenham, London, S.E.26**

Sole Distributors of DeVilbiss Products in the United Kingdom.

Telephones: Sydenham 6060—8 Lines.

CVS—225

**FOR ORAL MEDICATION**

**KERFOOTS  
Proflavine  
LOZENGES**

enable the affected tissues to be bathed in a naturally buffered antiseptic solution.

Each contains  
Proflavine Sulphate 3 mg.  
In bottles of 36 and 500

**KERFOOTS  
Sulphanilamide  
LOZENGES**

are of special value in throat affections due to local streptococcal infection.

Each contains  
Sulphanilamide gr. 1  
In bottles of 50 and 500

Professional samples on request.
