

FIRMIN DEBRABANDER

LIFE AFTER PRIVACY

RECLAIMING DEMOCRACY IN A
SURVEILLANCE SOCIETY

Does access to privacy make us better at having creative or provocative thoughts? Or do we instead create and provoke in concert with others and with respect to the world around us? Does privacy help us avoid undue manipulation and propaganda, or are we unavoidably affected by such things, even when we're alone? In this book, DeBrabander investigates theories of privacy and compares them to the realities of living in the age of surveillance and AI nudges. The bad news is, we might not have privacy anymore; the good news is, we might not need it.

Cathy O'Neil, author of *Weapons of Math Destruction*
