

Erratum: The Lehmer Polynomial and Pretzel Links

Eriko Hironaka

Abstract. Erratum to *The Lehmer Polynomial and Pretzel Links*, Canad. Math. Bull. 44(2001), 440–451.

In the statement of Theorem 1.2, “ $(p_1, \dots, p_k, -1)$ -pretzel link” should be replaced by “ $(p_1, \dots, p_k, -1, \dots, -1)$ -pretzel link, where the number of -1 's is $k - 2$.” Also, the restriction that k is odd is not necessary. The proof of Theorem 1.2 remains the same, noting that the extra -1 twists are necessary for the lower right entry of the Seifert matrix to be correct. There is no effect on any of the other results of the original paper. The $(p_1, \dots, p_k, -1, \dots, -1)$ -pretzel links are among what are called “Coxeter links”, which are fibered links corresponding to simply laced Coxeter systems. We will elaborate on Coxeter links in a forthcoming article.
