WEED TECHNOLOGY

Published six times a year by the Weed Science Society of America

Jason K. Norsworthy, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Technology* include all aspects of weed management in agricultural, horticultural, ornamental, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; weed resistance to herbicides; herbicide resistant crops; biological weed control agents; new weed management techniques; impacts of weed competition with crops; vegetation management with plant growth regulators; weed surveys; weed-related grower surveys; education; and extension. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Jason Bond, *Stoneville, MS* (2010)

Kevin Bradley, *Columbia, MO* (2012)

Barry Brecke, *Jay, FL* (2013)

Peter Dittmar, *Gainesville, FL* (2016)

Aaron Hager, *Urbana, IL* (2012)

Charles Geddes, *Lethbridge, AB* (2022)

Katherine Jennings, *Raleigh, NC* (2021)

Prashant Jha, *Ames, IA* (2016)

Amit Jhala, *Lincoln, NE* (2018)

David Johnson, *Des Moines, IA* (2019)

William Johnson, *West Lafayette, IN* (2007)

Vipin Kumar, *Hays, KS* (2020)

Drew Lyon, *Pullman, WA* (2018)

Robert Nurse, *Guelph, ON* (2016)

Sandeep Rana, *Galena, MD* (2021)

Darren Robinson, *Ridgetown, ON* (2008)

Larry Steckel, *Jackson, TN* (2007)

Daniel Stephenson, *Alexandria, LA* (2013)

Michael Walsh, *Crawley, Australia* (2016)

Eric Webster, *Laramie, WY* (2018)

Rodrigo Werle, *Madison, WI* (2022)

R. Joseph Wuerffel, *Vero Beach, FL* (2020)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Technology (ISSN 0890-037X) is published by the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234. It is published bimonthly, one volume per year, six issues per year beginning in February.

Membership includes online access to *Weed Technology*, *Weed Science*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Technology* subscription page at <https://www.cambridge.org/core/journals/weed-technology/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Technology publishes six times a year in February, April, June, August, October, and December. Annual institutional electronic subscription rates: US \$403.00; UK £280.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/wt>). Authors are asked to pay \$85 for the first page and \$65 per page thereafter as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Technology* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique propagative materials they might possess with other workers in that area who request such materials for the purpose of scientific research.

WEED TECHNOLOGY

VOLUME 36

SEPTEMBER–OCTOBER 2022

NUMBER 5

• RESEARCH ARTICLES

- Multiple herbicide resistance in waterhemp (*Amaranthus tuberculatus*) accessions from Wisconsin
Felipe A. Faleco, Maxwel C. Oliveira, Nicholas J. Arneson, Mark Renz, David E. Stoltenberg and Rodrigo Werle 597
- Sensitivity of nonresistant winter wheat to quizalofop-P-ethyl in central Oklahoma and Kansas
J. Tanner Childers, Misha R. Manuchehri, Vipran Kumar and Tyson E. Ochsner 609
- Survey of pesticide application practices and technologies in Georgia agronomic crops
Simerjeet S. Virk and Eric P. Prostko 616
- Economic impact of glyphosate-resistant weeds on major field crops grown in Ontario
Nader Soltani, Charles Geddes, Martin Laforest, J. Anita Dille and Peter H. Sikkema 629
- HPPD inhibitor-susceptible soybean growth, yield, and economic return following isoxaflutole and mesotrione applied postemergence
Daniel O. Stephenson IV, Donnie K. Miller, Jason A. Bond and Michael A. Deliberto Jr 636
- Control of glyphosate-resistant horseweed with Group 4 herbicides in soybean
Nader Soltani, Christy Shropshire and Peter H. Sikkema 643
- Effect of differential levels of simulated overhead irrigation on residual herbicides applied to wheat straw-covered soil for barnyardgrass control
Benjamin P. Sperry, J. Connor Ferguson, Jason A. Bond, Greg R. Kruger, Ashli B. Johnson and Daniel B. Reynolds 648
- Emergence pattern of horseweed (*Erigeron canadensis* L.) accessions across Nebraska
Ahmadreza Mobli, Maxwel Oliveira, Liberty Butts, Chris Proctor, Nevin Lawrence and Rodrigo Werle 655
- Differential response of winter- and summer-emerging accessions of rigid ryegrass (*Lolium rigidum* Gaudin) to postemergence herbicides in Australia
Bhagirath S. Chauhan and Michael Walsh 663
- HPPD-resistant cotton response and weed management systems using isoxaflutole
Delaney C. Foster, Peter A. Dotray, Corey N. Thompson, Gregory B. Baldwin and Frederick T. Moore 671
- Influence of soil water content on growth and panicle production of fall panicum (*Panicum dichotomiflorum*)
Venkatanaga Shiva Datta Kumar Sharma Chiruvelli, Hardev S. Sandhu, Ron Cherry and D. Calvin Odero 678
- Control of acetolactate synthase-resistant Palmer amaranth in dry edible bean
Clint W. Beiermann, Cody F. Creech, Stevan Z. Knezevic, Amit J. Jhala, Robert Harveson and Nevin C. Lawrence 685
- Effects of different application methods of spent coffee grounds on weed growth
Yoshihiro Hirooka, Shintaro Kurashige, Koji Yamane, Misako Kakiuchi, Taku Miyagawa, Kazuya Iwai and Morio Iijima 692
- Smutgrass (*Sporobolus indicus*) control in bahiagrass is improved with applications of herbicide and fertilizer
Nicholas J. Shay, Lisa L. Baxter, Nicholas T. Basinger, Brian M. Schwartz and Jason Belcher 700
- Broadleaf weed control and white clover response to florypyrauxifen-benzyl + 2,4-D and common pasture herbicides
Wykle C. Greene, Scott Hagood, Benjamin Tracy, Ozzie Abaye and Michael L. Flessner 708
- Narrow-windrow burning to control seeds of Italian ryegrass (*Lolium perenne* ssp. *multiflorum*) in wheat and Palmer amaranth (*Amaranthus palmeri*) in soybean
Matthew P. Spoth, Steven C. Haring, Wesley Everman, Chris Reberg-Horton, Wykle C. Greene and Michael L. Flessner 716
- Seed germination responses of broomrape species (*Phelipanche ramosa* and *Phelipanche aegyptiaca*) to various sanitation chemicals
Pershang Hosseini, O. Adewale Osipitan and Mohsen B. Mesgaran 723
- Tolerance of peppermint to tiafenacil applied postharvest
Stephen L. Meyers, Jeanine Arana and Brandi C. Woolam 729
- Control of pervasive row crop weeds with dicamba and glufosinate applied alone, mixed, or sequentially
Eric A. L. Jones, Ramon G. Leon and Wesley J. Everman 733
