
THE ROYAL INSTITUTE OF NAVIGATION

Aims and Objects

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

Membership

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 69, 2016, which includes print and electronic access, is £575 (USA, Canada and Mexico US \$1040) and includes delivery by air; single parts are available at £105 (USA, Canada and Mexico US \$188) plus postage. The electronic-only price available to institutional subscribers is £446 (USA, Canada and Mexico US \$813). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. *The Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

THE JOURNAL OF NAVIGATION

VOLUME 69 NUMBER 6 NOVEMBER 2016

CONTENTS

- Revisiting the Mercator World Map of 1569: an Assessment of Navigational Accuracy** 1183
Joaquim Alves Gaspar
- Interaction Forces Between Two Ships During Underway Replenishment** 1197
Anna Miller
- Multi-Region Scene Matching Based Localisation for Autonomous Vision Navigation of UAVs** 1215
Zhenlu Jin, Xuezhi Wang, Bill Moran, Quan Pan and Chunhui Zhao
- Signal Biases Calibration for Precise Orbit Determination of the Chinese Area Positioning System using SLR and C-Band Transfer Ranging Observations** 1234
Cao Fen, Yang Xuhai, Li Zhigang, Chen Liang and Feng Chugang
- Model of the Adaptive Information System on a Navigational Bridge** 1247
Lovro Maglić, Damir Zec and Vlado Frančić
- Key Factors Influencing the Building of Arctic Shipping Routes** 1261
Wen-Hwa Shyu and Ji-Feng Ding
- QIF-based GPS Long-baseline Ambiguity Resolution with the Aid of Atmospheric Delays Determined by PPP** 1278
Baocheng Zhang, Yunbin Yuan and Yanju Chai
- Single-Epoch Navigation Performance with Real BDS Triple-Frequency Pseudorange and EWL/WL Observations** 1293
Wang Gao, Chengfa Gao and Shuguo Pan
- Three-step Algorithm for Rapid Ambiguity Resolution between Reference Stations within Network RTK** 1310
Wang Shengli, Deng Jian, Ou Jikun and Nie Wenfeng
- Towards an Improvement of Magnetic Compass Accuracy and Adjustment** 1325
Imanol Basterretxea-Iribar, Irazu Sotés and Jose Ignacio Uriarte
- Adaptable Fuzzy Expert System for Ship Lock Control Support** 1341
Todor Bačkalić, Vladimir Bugarski, Filip Kulić and Željko Kanović
- Inertial Aided Cycle Slip Detection and Repair for PPP/INS Tightly Coupled Navigation** 1357
Zengke Li, Jingxiang Gao and Jian Wang
- A Vessel's Mathematical Model and its Real Counterpart: A Comparative Methodology Based on a Real-world Study** 1379
Krzysztof Czaplewski and Piotr Zwolan
- An Improved Geometry-free Three Carrier Ambiguity Resolution Method for the BeiDou Navigation Satellite System** 1393
Xing Wang, Wenxiang Liu and Guangfu Sun
- CPA Calculation Method based on AIS Position Prediction** 1409
Ling-zhi Sang, Xin-ping Yan, Alan Wall, Jin Wang and Zhe Mao
- Error Correction of Infrared Earth Radiance for Autonomous Navigation** 1427
Jianqing Li, Changsheng Gao, Tianming Feng and Wuxing Jing
