International Journal of Technology Assessment in Health Care

Official Journal of Health Technology Assessment International

Editor-in-Chief

Egon Jonsson, Ph.D.

Professor, University of Alberta, and University of Calgary
Executive Director and CEO, Institute of Health Economics
1200, 10405 Jasper Avenue

Edmonton, Alberta, Canada T5J 3N4

Telephone: +1-780-448-4881; Fax: +1-780-448-0018; E-mail: ejonsson@ihe.ca

Aims and Scope: The *International Journal of Technology Assessment in Health Care* has as its specific scope of interest the generation, evaluation, diffusion, and use of health care technology. It addresses the diverse audience of health care providers within medicine, public health, nursing, and the allied health professions; decision makers in government, industry, and health care organizations; and the scholarly disciplines such as ethics, economics, law, history, sociology, psychology, and engineering. The journal aims to fill the needs of those interested in the complexities of interaction between people and technology; technology as a force in social and organizational change; and technology as it is created, produced, applied, and paid for. It examines descriptively and analytically the effects of technology as perceived from the vantage point of different academic disciplines and policy-making organizations and examines methods necessary to conduct studies and evaluations of technology.

The focus of the journal is the international health care community. The experience of different countries in their encounter with health care technology, viewed comparatively, is invaluable to understanding its effects. Further, it is important to establish ties with the scholars, governments, and private institutions concerned with health care technology so that the experiences and learning of the international community in its parts can benefit the whole. The use of technology in health care has created some of the major dilemmas in society today. The journal serves as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients, and its impact on society.

Publishing, Advertising, and Subscription Offices: Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473, U.S.A. (for U.S.A., Canada, and Mexico); or Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK (for U.K. and elsewhere).

2010 Subscription Information: *International Journal of Technology Assessment in Health Care* (ISSN 0266-4623) is published quarterly in January, April, July, and October by Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473; Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK. Annual institutional subscription rates for Volume 26 (2010): Print and online US

\$515.00, online only US \$431.00, and print only US \$467.00 in the U.S.A., Canada, and Mexico; Print and online UK £286.00, online only UK £243.00, and print only UK £260.00 elsewhere. Individual rates: Print and online US \$245.00 and print only US \$223.00 in the U.S.A., Canada, and Mexico; Print and online UK £143.00 and print only UK £123.00 elsewhere. Prices include postage; air mail or registered mail is extra. Single part: US \$120.00 in the U.S.A., Canada, and Mexico; UK £67.00 elsewhere. Back volume prices are available upon request. *International Journal of Technology Assessment in Health Care* and other Cambridge journals can be found at <http://journals.cambridge.org>

European network for Health Technology Assessment, EUnetHTA

CONTENTS

- 1** Practical tools and methods for health technology assessment in Europe: Structures, methodologies, and tools developed by the European network for Health Technology Assessment, EUnetHTA
Finn Børllum Kristensen, Kristian Lampe, Deborah L. Chase, Sun Hae Lee-Robin, Claudia Wild, Montse Moharra, Marcial Velasco Garrido, Camilla Palmhøj Nielsen, John-Arne Røttingen, Susanna Allgurin Neikter, and Marie Louise Bistrup for the European network for Health Technology Assessment (EUnetHTA)
- 9** The HTA Core Model: A novel method for producing and reporting health technology assessments
Kristian Lampe, Marjukka Mäkelä, Marcial Velasco Garrido, Heidi Anttila, Ilona Autti-Rämö, Nicholas J. Hicks, Björn Hofmann, Juha Koivisto, Regina Kunz, Pia Kärki, Antti Malmivaara, Kersti Meiesaar, Päivi Reiman-Möttönen, Inger Norderhaug, Iris Pasternack, Alberto Ruano-Ravina, Pirjo Räsänen, Ulla Saalasti-Koskinen, Samuli I. Saarni, Laura Walin, and Finn Børllum Kristensen for the European network for Health Technology Assessment (EUnetHTA)
- 21** Testing the HTA Core Model: Experiences from two pilot projects
Iris Pasternack, Heidi Anttila, Marjukka Mäkelä, Tuija Ikonen, Pirjo Räsänen, Kristian Lampe, Hans van Brabant, Irina Cleemput, Chris de Laet, Marco Marchetti, Pietro Refolo, Dario Sacchini, Regina Kunz, Alain Nordmann, Dagmar Lühmann, and Bo Freyschuss for the European network for Health Technology Assessment (EUnetHTA)
- 28** The adaptation of health technology assessment reports: Identification of the need for, and development of, a toolkit to aid the process
Sheila Turner, Deborah L. Chase, Ruairidh Milne, Andrew Cook, Nicholas J. Hicks, Claire Rosten, Liz Payne, Suzanne Coles, and Eleanor Bell for the European network for Health Technology Assessment (EUnetHTA)
- 37** The health technology assessment adaptation toolkit: Description and use
Sheila Turner, Deborah L. Chase, Ruairidh Milne, Andrew Cook, Nicholas J. Hicks, Claire Rosten, Liz Payne, Suzanne Coles, and Eleanor Bell for the European network for Health Technology Assessment (EUnetHTA)
- 42** Enhancing understanding: The development of a glossary of health technology assessment adaptation terms
Claire Rosten, Deborah L. Chase, Nicholas J. Hicks, and Ruairidh Milne for the European network for Health Technology Assessment (EUnetHTA)
- 48** Information service on new and emerging health technologies: Identification and prioritization processes for a European Union-wide newsletter
Claudia Wild, Sue Simpson, Karla Douw, Sabine Geiger-Gritsch, Stefan Mathis, and Thomas Langer
- 56** A common policy framework for evidence generation on promising health technologies
Cédric Carbonneil, Fabienne Quentin, and Sun Hae Lee-Robin for the European network for Health Technology Assessment (EUnetHTA)
- 68** Web-based toolkit to facilitate European collaboration on evidence generation on promising health technologies
Fabienne Quentin, Cédric Carbonneil, Céline Moty-Monnereau, Elena Berti, Wim Goettsch, and Sun Hae Lee-Robin for the European network for Health Technology Assessment (EUnetHTA)

- 75** Systems to support health technology assessment (HTA) in Member States of the European Union with limited institutionalization of HTA
Montse Moharra, Mireia Espallargues, Nadine Kubesch, Maria-Dolors Estrada, Antoni Parada, Hindrik Vondeling, Alessandra Lo Scalzo, Stelios Cristofides, Eva Turk, and Martin Raab on behalf of Work Package 8 of the European network for Health Technology Assessment (EUnetHTA) project
- 84** Involving stakeholders and developing a policy for stakeholder involvement in the European network for Health Technology Assessment, EUnetHTA
Camilla Palmhøj Nielsen, Sarah Wadmann Lauritsen, Finn Børlum Kristensen, Marie Louise Bistrup, Americo Cecchetti, and Eva Turk for the European network for Health Technology Assessment Work Package 6 Partners
- 92** Toward a new information infrastructure in health technology assessment: Communication, design, process, and results
Susanna Allgurin Neikter, Nina Rehnqvist, Måns Rosén, and Helena Dahlgren
- 99** Internal evaluation of the European network for Health Technology Assessment project
Lise Lund Håheim, Iñaki Imaz, Marlène Läubli Loud, Teresa Gasparetto, Jesús González-Enriquez, Helena Dahlgren, Igor Trofimovs, Elena Berti, and Berit Mørland, for Work Package 3 Partners
- 107** European network for Health Technology Assessment, EUnetHTA: Planning, development, and implementation of a sustainable European network for Health Technology Assessment
Finn Børlum Kristensen, Marjukka Mäkelä, Susanna Allgurin Neikter, Nina Rehnqvist, Lise Lund Håheim, Berit Mørland, Ruairidh Milne, Camilla Palmhøj Nielsen, Reinhard Busse, Sun Hae Lee-Robin, Claudia Wild, Mireia Espallargues, and Julia Chamova for the European network for Health Technology Assessment (EUnetHTA)
