

IAU Transactions No.
XXVIII B

Proceedings of
the Twenty Eighth
General Assembly
Beijing 2012

These Transactions provide a record of the formal organisational and administrative proceedings of the IAU XXVIII General Assembly which took place in Beijing, China, in August 2012. They include the admission of new members, the Resolutions passed, an account of the regular Business Meetings of the Executive Committee, the Divisions, Commissions and Working Groups. Of particular note, a new Divisional structure for the IAU was approved and a new Division on 'Education, Outreach and Heritage' created. Also included in this volume is the welcome address given by Xi Jinping, then Vice-President and now President of the People's Republic of China. Over 3200 registered attendees enjoyed a rich scientific programme of 8 Symposia, 7 Joint Discussions and 18 Special Sessions. Proceedings of the IAU Symposia are published in a separate series, and those of the Invited Discourses, Joint Discussions and Special Sessions feature in *Highlights of Astronomy, Volume 16*.

Proceedings of the International Astronomical Union
Editor in Chief: Dr. Thierry Montmerle

This series contains the proceedings of major scientific meetings held by the International Astronomical Union. Each volume contains a series of articles on a topic of current interest in astronomy, giving a timely overview of research in the field. With contributions by leading scientists, these books are at a level suitable for research astronomers and graduate students.
