WEED TECHNOLOGY

Published six times a year by the Weed Science Society of America

Jason K. Norsworthy, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Technology* include all aspects of weed management in agricultural, horticultural, ornamental, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; weed resistance to herbicides; herbicide resistant crops; biological weed control agents; new weed management techniques; impacts of weed competition with crops; vegetation management with plant growth regulators; weed surveys; weed-related grower surveys; education; and extension. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Jason Bond, *Stoneville, MS* (2010)

Kevin Bradley, *Columbia, MO* (2012)

Barry Brecke, *Jay, FL* (2013)

Peter Dittmar, *Gainesville, FL* (2016)

Aaron Hager, *Urbana, IL* (2012)

Charles Geddes, *Lethbridge, AB* (2022)

Katherine Jennings, *Raleigh, NC* (2021)

Prashant Jha, *Baton Rouge, LA* (2016)

Amit Jhala, *Lincoln, NE* (2018)

David Johnson, *Des Moines, IA* (2019)

William Johnson, *West Lafayette, IN* (2007)

Vipin Kumar, *Cornell, NY* (2020)

Drew Lyon, *Pullman, WA* (2018)

Robert Nurse, *Guelph, ON* (2016)

Sandeep Rana, *Galena, MD* (2021)

Darren Robinson, *Ridgetown, ON* (2008)

Larry Steckel, *Jackson, TN* (2007)

Daniel Stephenson, *Alexandria, LA* (2013)

Michael Walsh, *Crawley, Australia* (2016)

Eric Webster, *Laramie, WY* (2018)

Rodrigo Werle, *Madison, WI* (2022)

R. Joseph Wuerffel, *Vero Beach, FL* (2020)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Technology (ISSN 0890-037X) is published by the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234. It is published bimonthly, one volume per year, six issues per year beginning in February.

Membership includes online access to *Weed Technology*, *Weed Science*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Technology* subscription page at <https://www.cambridge.org/core/journals/weed-technology/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Technology publishes six times a year in February, April, June, August, October, and December. Annual institutional electronic subscription rates: US \$418.00; UK £290.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/wt>). Authors are asked to pay \$85 for the first page and \$65 per page thereafter as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Technology* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique propagative materials they might possess with other workers in that area who request such materials for the purpose of scientific research.

“Crop-topping common lambsquarters with a wick bar” (Agriculture and Agri-Food Canada).

WEED TECHNOLOGY

VOLUME 37

JULY–AUGUST 2023

NUMBER 4

• RESEARCH ARTICLES

- Evaluation of crop-topping strategies to reduce common lambsquarters (*Chenopodium album*) seed production in potato production systems
Laura Anderson, Scott Neil White and Andrew McKenzie-Gopsill 323
- Evaluation of smart spray technology for postemergence herbicide application in row middles of plasticulture production
Ana C. Buzanini, Arnold Schumann and Nathan S. Boyd 336
- Ethofumesate applied at greater than labeled rates postemergence to sugarbeet
Alexa L. Lystad and Thomas J. Peters 343
- Effects of 2,4-D choline on fruiting in sensitive cotton
Kyle R. Russell, Peter A. Dotray, Glen L. Ritchie and Brendan R. Kelly 352
- Regional response of zoysiagrass turf to glufosinate and glyphosate applied during postdormancy transition based on accumulated heat units
Jordan M. Craft, Navdeep Godara, Jeffrey F. Derr, Adam D. Nichols, James D. McCurdy, Michael P. Richard and Shawn D. Askew 361
- Effect of spray droplet spectra on control of *Poa annua* with pronamide
Martin Ignes, J. Connor Ferguson, Te-Ming Tseng, Barry R. Stewart, Edicarlos B. Castro and James D. McCurdy 368
- Characterization of imazamox-resistant shattercane (*Sorghum bicolor* L.) populations from Kansas
Vipan Kumar, Rui Liu, Deepika Chauhan, Ramasamy Perumal, Sarah Morran, Todd A. Gaines and Prashant Jha 376
- Contributions of shading, soybean (*Glycine max*) row width, and planting green on horseweed (*Conyza canadensis*) management compared with soil-applied residual herbicides
Justine L. Fisher and Christy L. Sprague 383
- Synergistic interactions of 2,4-D, dichlorprop-p, dicamba, and halauxifen/fluroxypyr for controlling multiple herbicide-resistant kochia (*Bassia scoparia* L.)
Sachin Dhanda, Vipan Kumar, Patrick W. Geier, Randall S. Currie, J. Anita Dille, Augustine Obour, Elizabeth A. Yeager and Johnathon Holman 394
- Sensitivity of TamArk™ grain sorghum and monocot weed species to ACCase- and ALS-inhibiting herbicides
Jacob Fleming, Jason K. Norsworthy, Muthukumar Bagavathiannan and Tom Barber 402
- Preemergence herbicide premixes reduce the risk of soil residual weed control failure in corn
Tatiane Severo Silva, Nicholas John Arneson, Ryan P. DeWerff, Daniel H Smith, Daniel Valadão Silva and Rodrigo Werle 410
- Cereal rye residue management tactics influence interrow and intrarow weed recruitment dynamics in field corn when planting green
John M. Wallace, Tosh Mazzone and Zachary Larson 422
- Assessment of dicamba and 2,4-D residues in Palmer amaranth and soybean
Maria Leticia Zaccaro-Gruener, Jason K. Norsworthy, Leonard B. Piveta, L. Tom Barber and Andy Mauromoustakos 431
- ## • EDUCATION/EXTENSION
- Preferred information and delivery methods for weed management extension in Virginia
Kara B. Pittman, Eli C. Russell and Michael L. Flessner 445
- ## • REVIEW
- Echinochloa* in mid-southern U.S. and California rice: What is known and what are the knowledge gaps?
Amar S. Godar and Jason K. Norsworthy 452
