## EDITORIAL POLICY

The *British Journal of Political Science* is an independent journal, whose policy is set by its editorial board. It is committed to no methodological orthodoxy over and above the normal canons of scholarship: clear and consistent use of words, logical and mathematical validity, and the use of appropriate evidence to substantiate empirical statements. Contributions are invited in all fields of political science, including political philosophy and political sociology. Work addressed to problems of general significance to students of politics will be published whatever the period(s) or place(s) drawn upon for evidence.

**Karl Marx**

His Life and Environment

**Isaiah Berlin**

For this fourth edition of his brilliant account of the life and doctrines of Karl Marx, Isaiah Berlin has revised the text throughout, added a number of new passages, and written a new preface; an extensive guide to further reading has been supplied by Terrell Carver. Fourth edition £3.95 paper covers £1.95 *OUPS*

**Reconciling Man with the Environment**

**Lord Ashby**

In this book Lord Ashby has two aims: first, to trace the political process between the disclosure of a hazard to the environment and the action to remedy that hazard; secondly, to trace the slow evolution of the public conscience from indifference to concern for the environment. Lord Ashby concludes that there has been a consistent trend towards greater concern for the environment, and he advances an explanation for this based on analogies derived from biological evolution. £4.25

**Ombudsmen Compared**

**Frank Stacey**

This is the first comparison of the operations of Ombudsman systems in Britain, Scandinavia, Canada, and France. The author has interviewed Ombudsmen and their staff, analysed their annual reports, their case reports, and other documentary material. In addition, the book examines the key controversies about the British Ombudsman system since 1967 and suggests ways in which the Parliamentary Commissioner, the Health Service Commissioner, and the Local Commissioners could be made more effective and accessible in the light of experience in the other countries studied. £10

**Utilitarian Logic and Politics**

James Mill's 'Essay on Government',  
Macaulay's Critique and the Ensuing Debate

**Jack Lively and John Rees**

The controversy arising out of Macaulay's attack on James Mill's *On Government* has an important place in nineteenth-century English political thought. The original articles of the debate are reprinted together for the first time, along with a chapter from J. S. Mill's *Logic* in which he draws his own conclusions from the controversy. The editorial introduction sets the debate in historical context and discusses some of the principal matters of dispute between the parties. £7.50

**Main Currents of Marxism  
Its Rise, Growth, and Dissolution**

Volume I: The Founders

Volume II: The Golden Age

Volume III: The Breakdown

**Leszek Kolakowski**

**Translated by P. S. Falla**

The author delineates the development of Marx's own thought and the contributions of his best-known followers. No survey of the doctrines of the Marxist tradition could fail to be controversial, but Professor Kolakowski's treatment is detached and pluralistic and he does not attempt to identify a pure or essentially Marxist stand in the tradition as a whole. There is no better example of the variety of Marxism than the diversity which results from the tension between the Utopian and fatalist impulses in Marx's thought. In Professor Kolakowski's own words, 'The surprising diversity of views expressed by Marxists in regard to Marx's so-called historical determinism is a factor which makes it possible to present and schematize with precision the trends of twentieth-century Marxism. It is also clear that one's answer to the question concerning the place of human consciousness and will in the historical process goes far towards determining the sense one ascribes to socialist ideas and is directly linked with the theory of revolutions and of crises.'

Volume I £7.95, Volume II £8.50, Volume III £8.50
