CONTENTS

	NO.
1 Dalradian Structure and Stratigraphy of the Northern Loch Awe District, Argyllshire. By G. J. BORRADAILE, Department of Geology, University of Durham	1
2 Palynological Correlations within the Lower Carboniferous of Scotland and Northern England. By R. NEVES, K. J. GUEINN, G. CLAYTON, Department of Geology, University of Sheffield, N. S. IOANNIDES, Department of Geology, King's College, London, R. S. W. NEVILLE, Robertson Research Co. Ltd., Llandudno, and K. KRUSZEWSKA, Giowny Instytut Gornictwa, Katowice, Poland	23
3* The Cytology of the Parthenogenetic Australian Weevil <i>Listroderes costirostris</i> Schönh. By ANN R. SANDERSON, Department of Biological Sciences, University of Dundee	71
4 On the Structure of a Petrified Stem and some Associated Seeds from the Lower Carboniferous Rocks of East Lothian, Scotland. By P. D. W. BARNARD, Department of Botany, University of Reading, and A. G. LONG, Hancock Museum, Newcastle upon Tyne	91
5 Additional Cytotaxonomic Notes on the Pteridophytes of Jamaica. By TREVOR G. WALKER, Department of Botany, University of Newcastle upon Tyne	109
6 A Re-examination of the Central Nervous System of <i>Alderia modesta</i> (Lovén). By T. GASCOIGNE, Alleyn's School, London	137
7* Coral Reefs and Molluscs. By C. M. YONGE, Department of Zoology, University of Edinburgh	147
8 A Stratigraphical Revision of the Old Red Sandstone of North-eastern Caithness. By R. NOWELL DONOVAN, RICHARD J. FOSTER and T. STANLEY WESTOLL, Department of Geology, University of Newcastle upon Tyne	167
9* On the Ecology and Sedimentation of the Cardium Shellsands and Transgressive Shellbanks of Traigh Mhor, Island of Barra, Outer Hebrides. By GEORGE E. FARROW, Department of Geology, University of Glasgow	203
10 Triradioxylon—a New Genus of Lower Carboniferous Petrified Stems and Petioles together with a Review of the Classification of Early Pterophytina. By P. D. W. BARNARD, Department of Botany, University of Reading, and A. G. LONG, Hancock Museum, Newcastle upon Tyne	231
11 Some Observations on the Fertile Parts of <i>Zosterophyllum myretonianum</i> Penhallow from the Lower Old Red Sandstone of Scotland. By DIANNE EDWARDS, Department of Botany, University College, Cardiff	251
12 Further Observations on some Lower Carboniferous Seeds and Cupules. By A. G. LONG, Hancock Museum, Newcastle upon Tyne	267
13 Zoning of Ore Deposits. By H. L. BARNES, The Pennsylvania State University, U.S.A.	295

- 14* The Silurian Rocks bordering Kirkcudbright Bay, South Scotland. By C. M. CLARKSON, G. Y. CRAIG, Grant Institute of Geology, University of Edinburgh, and E. K. WALTON, Department of Geology, University of St Andrews 313
- 15 *Calathopteris heterophylla* gen. et sp. nov., a Lower Carboniferous Pteridosperm bearing Two Kinds of Petioles. By ALBERT G. LONG, Hancock Museum, Newcastle upon Tyne 327
- 16* The Sensory Fields and Life Mode of *Phacops rana* (Green, 1832) (Trilobita). By JOHN MILLER, Grant Institute of Geology, University of Edinburgh 337
- 17 Trilobites from the basal *superstes* Mudstones (Ordovician) at Aldons Quarry, near Girvan, Ayrshire. By RONALD PEARSON TRIPP 369
- 18* Sedimentation in some Scottish Rivers of Low Sinuosity. By B. J. BLUCK, Department of Geology, University of Glasgow 425
- 19* On the Genus *Cordulegaster* Leach, 1815 (Odonata) with special reference to the Sicilian species. By A. RODGER WATERSTON, The Royal Scottish Museum, Edinburgh 457
- 20 *Rowleya trifurcata* gen. et sp. nov., a Simple Petrified Vascular Plant from the Lower Coal Measures (Westphalian A) of Lancashire. By ALBERT G. LONG, Hancock Museum, Newcastle upon Tyne 467
- 21 Morphological and Ontogenetic Reconstruction of *Parka decipiens* Fleming and *Pachythea* Hooker from the Lower Old Red Sandstone, Scotland. By KARL J. NIKLAS, The New York Botanical Garden, U.S.A. 483
- 22* The Terraces of Glen Feshie, Inverness-shire. By J. A. T. YOUNG, Department of Geography, University of Edinburgh 501
- 23 *Psalixochlaena berwickense* sp. nov., a Lower Carboniferous Fern from Berwickshire. By ALBERT G. LONG, Hancock Museum, Newcastle upon Tyne 513

* The cordial thanks of the Society are due to the Carnegie Trust for the Universities of Scotland for grants towards the costs of the illustrations and tables in these papers.
