PATRON

H.R.H. THE PRINCE PHILIP DUKE OF EDINBURGH, KG, KT, OM

OFFICERS AND COUNCIL 1991-92

PRESIDENT

N. B. Dahl

VICE PRESIDENTS

Rear Admiral R. O. Morris, CB
R. W. BRIDGE, AFC

TREASURER

H. J. Agnew

CHAIRMAN OF THE TECHNICAL COMMITTEE

W. F. Blanchard

CHAIRMAN OF THE MEMBERSHIP & FELLOWSHIP COMMITTEE

D. M. Page

Other Members of Council

Professor V. Ashkenazi
C. D. M. Beatty
Air Commodore N. Bonnor
Captain A. N. Cockcroft
Dr M. J. Dove

Dr R. Johannessen
Dr J. D. Last
J. Mitchell
Captain D. G. Ross
Captain R. A. Smith, RN

DIRECTOR

Group Captain D. W. Broughton, MBE, RAF

CONTENTS

In the Wake of Columbus	1
ROBIN KNOX-JOHNSTON	
The Future Navigation of Small Craft Both at Sea and in the Air	13
DAVID PAGE	
ECDIS Sea Trials	19
J. A. SPAANS	
Quantitative Estimation of Secondary Surveillance Radar Information	26
D. J. A. WEEDA, L. P. LIGTHART, L. R. NIEUWKERK AND D. C. M. VAN DER KLEIN	
The Accuracy and Coverage of Loran-C and of the Decca Navigator System – and the Fallacy of Fixed Errors	36
DAVID LAST	
The Avoidance of Collisions for Newtonian Bodies with Hidden Variables	52
B. D. BRAMSON	
Radionavigation in the UK in World War II	60
GP CAPT F. C. RICHARDSON	
A Brief Description of the Major Second World War Navigational Aids	70
BRIAN KENDAL	
Collision and Grounding Risk Analysis for Ships Navigating in Confined Waters	80
CORNELIS J. WENNINK	
European Studies to Investigate the Feasibility of using 1000 ft Vertical Separation Minima above FL 290. Part II. Precision Radar Data Analysis and Collision Risk Assessment	91
D. HARRISON AND G. MOEK	
The Development of Ship Collision Avoidance Automation	107
ZHAO JINGSONG, WANG FENGCHEN AND WU ZHAO-LIN	
The Shortest Distance Between Two Nearly Antipodean Points on the Surface of a Spheroid	114
R. WILLIAMS AND J. E. PHYTHIAN	
Optimal Position Estimate From a Stars Fix with Correlated Errors	126
C. DE WIT	
Assuring Punctual Arrival and Concomitant Economy of Fuel	134
CAPTAIN T. FALES	
Some Ideas on Calculating Great Circle Sailings	136
CHUNG-HSING CHIANG AND AN-YUANG TSENG	
The ‘Two-Body Problem’ at Sea	138
MIKE PEPPERDAY	
‘The Cocked Hat’	143
P. J. D. GETHING	
D. WILLIAM SWIFT	143
THE AUTHOR REPLIES: J. E. D. WILLIAMS	146
‘The Weather of the 1979 Fastnet Yacht Race’	148
Reviews	149
Presidential Address. Navigation: A Changing Trade	151
NORMAN DAHL	
The CURSOR Radio Navigation and Tracking System	157
PETER J. DUFFETT-SMITH AND GRAHAM WOAN	
Geostationary Augmentation of Global Satellite Navigation – 1991 Update	166
GEORGE V. KINAL AND JIM NAGLE	
The GLONASS System – An Overview	175
N. IVANOV AND V. SALISCHEV	

The International Activities of the Civil GPS Service Interface Committee	183
GEORGE PREISS	
A GPS Attitude Determination System	192
GREGORY J. WILSON AND JEFFREY D. TONNEMACHER	
GPS: Can it Contribute to European ATC?	205
M. E. COX, R. C. RAWLINGS, P. VAN DER KRAAN AND C. LEFAS	
Analysis of Stand-alone Differential GPS for Precision Approach	217
RONALD BRAFF AND ROBERT LOH	
Pilot Disorientation as the Most Frequent Cause of Fatal, Weather-Related Accidents in UK Civil and General Aviation	229
WILLIAM S. PIKE	
Marine Meteorological Services to Shipping, Past, Present and Future	241
G. V. MACKIE AND J. F. T. HOUGHTON	
Recent Progress in Weather Routeing for Merchant Vessels	247
J. S. HOPKINS	
Aviation Meteorology	252
FRANK DALTON	
GPS/GLONASS User Systems in Sweden	258
JOHNNY NILSSON	
The Navigational Background to 1492	266
MICHAEL RICHEY	
Quantitative Determination of Port VTMS Levels	285
QIU ZHIXIONG	
On Loxodromic Navigation	292
KITT C. CARLTON-WIPPERN	
Landfall and Coastal Lighthouse: A Canadian Perspective	298
JACK GALLAGHER	
A Basic Study on Synthetic Judgement of Shipping Safety	300
ZHAO JING-SONG, WU ZHAO-LIN AND WANG FENG-CHEN	
'Fuel Planning in Small Power Craft'	303
GEORGE HUXTABLE	
THE AUTHOR REPLIES	
'Hyperbolic Airborne Radio Navigation'	307
KEITH R. GREENAWAY	
S. RATCLIFFE	
'Navigation: Land, Sea, Air and Space'	308
MYRON KAYTON	
Reviews	310
The 21st Century Navigation Station	315
D. F. H. GROCCOTT	
Zheng He's Expeditions to the Western Ocean and His Navigation Technology	329
SUN GUANGQI	
Navstar GPS – Charting Aspects	344
NIGEL R. L. GOODING	
Options for Control and Navigation of Unmanned Aircraft	352
P. GARDNER AND C. R. DAY	
Safer Navigation in the '90s – Integrated Bridge Systems	369
CAPTAIN HANS HEDERSTRÖM AND CAPTAIN SVEN GYLDÉN	
Optimization of Time Saving in Navigation Through an Area of Variable Flow	384
R. W. LUNNON AND A. D. MARKLOW	
Collision Risk Circumstances and Traffic Routeing in the Approaches to the Strait of Juan de Fuca	400
BRAD JUDSON	
Shipboard Organization – the Choices for International Shipping	414
MARTYN B. A. DYER-SMITH	

Towards Global Marine Traffic Control – the Need, the Technical Feasibility and the Social and Political Impediments	425
A. G. CORBET	
Review of Mathematical Methods	440
ROY WILLIAMS	
‘Air Navigation Systems’	440
ALAN SILLITOE	
Radio Navigation – The Outlook for Europe	442
W. F. BLANCHARD	
Reviews	446

Guidance for Authors

Papers of navigational interest may be submitted directly to the editor. Papers will normally be refereed, and it may therefore be a few weeks before the editor can make a decision as to whether a contribution can be accepted for publication. Authors need not be members of the RIN.

Copy should be clearly typewritten with double spacing throughout, on one side only of A4 paper, and with a margin of at least 3 cm all round. Footnotes should be avoided, and authors are advised to consult a recent issue of the *Journal* for the style of paragraphing and the format for references.

The title of a paper should be concise, and should be followed by the author’s name and place of work. Papers are generally of the order of 5000 words or less. Units, symbols and abbreviations should, as far as possible, conform with the recommendations contained in the Royal Society publication *Quantities, Units and Symbols* (1975).

Illustrations should be kept to a minimum and, where possible, original artwork should be provided in camera-ready form. Long descriptions should appear as captions rather than on the figures themselves. Line drawings should conform to the *Journal* style. Preferably, the original artwork should not be labelled, but a duplicate should be supplied showing lettering correctly positioned. Where photographs are necessary, they should be supplied as unmounted glossy prints. Colour illustrations can only be included if the cost is met by the author.

Papers should be written in clear, straightforward English and the use of jargon should be kept to a minimum. The author of the best paper published in the *Journal* during a particular year is awarded the Institute’s Bronze Medal. The Technical Committee will take presentation into account in arriving at their recommendation for this award.

THE ROYAL INSTITUTE OF NAVIGATION

Aims and Objects

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

* The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication.

The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Study Groups which keep under constant review pertinent aspects of navigation. The success of these Study Groups is crucially dependent on the active involvement of members.

The Institute publishes *The Journal of Navigation* three times a year. It contains papers which have been presented at meetings together with the ensuing discussion, other original papers, selected papers and reports from Study Groups, and book reviews. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is co-ordinated with that of similar organizations in other countries. There are also active Branches throughout the United Kingdom.

Membership

There are five classes of Membership of the Institute:

(1) HONORARY MEMBERS: Distinguished persons upon whom the Council may see fit to confer an honorary distinction.

(2) FELLOWS: Members, of at least three years' standing, holding certain qualifications laid down in the by-laws; these qualifications include having made a contribution of value to navigation.

(3) MEMBERS: Persons over twenty-one years of age who satisfy the Council of their interest in navigation.

(4) STUDENT MEMBERS: Persons under twenty-five years of age studying at a recognized school or university with a view to making navigation, or an allied interest, their career.

(5) CORPORATE MEMBERS: Organizations such as universities, navigation schools, government departments or companies, here and abroad, who are directly or indirectly interested in the science of navigation. Corporate Members are entitled to send representatives to all Institute meetings and to receive six copies of its publications. They are encouraged to take an active part in the Institute's work. Applications should be sent by letter addressed to the Director.

Subscriptions

Annual subscriptions to the Institute are payable in advance as follows:

Members and Fellows	£42.00
Student Members	£5.00
Corporate Members	£300.00

The Institute's financial year begins on 1 July. Members in any category who are elected after 1 January in any year are only due for one half of their subscription until 1 July, when the full subscription for the next year becomes due.
