CONTENTS

Symposium 'Sustainable animal production in the tropics' (SAPT),

Guadeloupe, France, November 15-18, 2010

Mondonnet, N., Mahieu, M. and Boval, M.

Foreword: Sustainable animal production in the tropics: farming in a changing world 705

Renaudeau, D., Collin, A., Yahav, S., de Basilio, V., Gourdine, J. L. and Collier, R. J.

Adaptation to hot climate and strategies to alleviate heat stress in livestock production 707

Burrow, H. M.

Importance of adaptation and genotype \times environment interactions in tropical beef breeding systems 729

Bishop, S. C.

Possibilities to breed for resistance to nematode parasite infections in small ruminants in tropical production systems 741

Boval, M. and Dixon, R. M.

The importance of grasslands for animal production and other functions: a review on management and methodological progress in the tropics 748

González-García, E., Gourdine, J. L., Alexandre, G., Archimède, H. and Vaarst, M.

The complex nature of mixed farming systems requires multidimensional actions supported by integrative research and development efforts 763

Breeding and genetics

Byrne, T. J., Amer, P. R., Fennessy, P. F., Hansen, P. and Wickham, B. W.

A preference-based approach to deriving breeding objectives: applied to sheep breeding 778

Thomasen, J. R., Guldbrandtsen, B., Su, G., Brøndum, R. F. and Lund, M. S.

Reliabilities of genomic estimated breeding values in Danish Jersey 789

Nutrition

Campos, P. H. R. F., Silva, B. A. N., Donzele, J. L., Oliveira, R. F. M. and Knol, E. F.

Effects of sow nutrition during gestation on within-litter birth weight variation: a review 797

While, S. G., Kjos, N. P., Sørum, H. and Øverland, M.

Feeding Jerusalem artichoke reduced skatole level and changed intestinal microbiota in the gut of entire male pigs 807

Zhou, Y. W., McSweeney, C. S., Wang, J. K. and Liu, J. X.

Effects of disodium fumarate on ruminal fermentation and microbial communities in sheep fed on high-forage diets 815

Physiology and functional biology of systems

Attia, Y. A. and Kamel, K. I.

Semen quality, testosterone, seminal plasma biochemical and antioxidant profiles of rabbit bucks fed diets supplemented with different concentrations of soybean lecithin 824

Wiercinska, P., Lou, Y. and Squires, E. J.

The roles of different porcine cytochrome P450 enzymes and cytochrome b5A in skatole metabolism 834

Behaviour, welfare and health

Freire, R., Swain, D. L. and Friend, M. A.

Spatial distribution patterns of sheep following manipulation of feeding motivation and food availability 846

Farming systems and environment

Hostiou, N. and Dedieu, B.

A method for assessing work productivity and flexibility in livestock farms 852

Product quality, human health and well-being

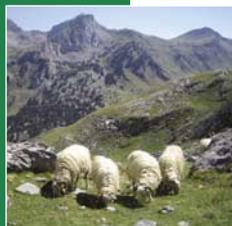

Bodas, R., Prieto, N., Jordán, M. J., López-Campos, Ó., Giráldez, F. J., Morán, L. and Andrés, S.

The liver antioxidant status of fattening lambs is improved by naringin dietary supplementation at 0.15% rates but not meat quality 863

Corrigendum

Morgavi, D. P., Forano, E., Martin, C. and Newbold, C. J.

Microbial ecosystem and methanogenesis in ruminants – CORRIGENDUM 871

CAMBRIDGE

JOURNALS

British Journal of Nutrition

Published on behalf of The Nutrition Society

Editor-in-Chief

P.C. Calder, University of Southampton, UK

British Journal of Nutrition is a leading international peer-reviewed journal covering research on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. The journal recognises the multi-disciplinary nature of nutritional science and includes material from all of the specialities involved in nutrition research, including molecular and cell biology, and the emerging area of nutritional genomics.

Parasitology

Editor-in-Chief

R. S. Phillips, University of Glasgow, UK

Parasitology is an important specialist journal covering the latest advances in the subject. It publishes original research and review papers on all aspects of parasitology and host-parasite relationships, including the latest discoveries in parasite biochemistry, molecular biology and genetics, ecology and epidemiology in the context of the biological, medical and veterinary sciences. Included in the subscription price are two special issues which contain reviews of current hot topics in parasitology, one of which is the proceedings of the annual Symposium of the British Society for Parasitology, while the second, covering areas of significant topical interest, is commissioned by the editors and the editorial board.

Genetics Research

Editor-in-Chief

T. F. C. Mackay, North Carolina State University, USA

Executive Editors

D. J. Finnegan, University of Edinburgh, UK

William G. Hill, University of Edinburgh, UK

Shizhong Xu, University of California, USA

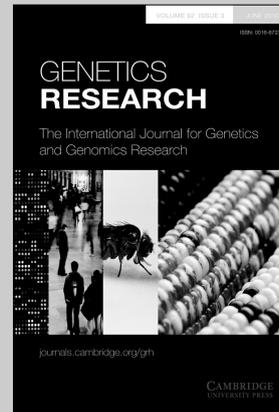

Genetics Research is a key forum for original research on all aspects of genetics. Building on the success and history of its previous incarnation, *Genetical Research*, the journal has a publishing remit that provides comprehensive coverage of subjects vital to the field, including: evolutionary and population genetics, genetics of complex traits, quantitative and statistical genetics, bioinformatics, genomics, molecular and developmental genetics, Evo-Devo, conservation genetics and environmental genetics.

Journal of Helminthology

Editor

John Lewis, Royal Holloway, University of London, UK

Journal of Helminthology publishes original papers and review articles on all aspects of pure and applied helminthology, particularly those helminth parasites of environmental health, medical or veterinary importance. Research papers on helminths in wildlife hosts, including plant and insect parasites, are also published along with taxonomic papers contributing to the systematics of a group. The journal will be of interest to academics and researchers involved in the fields of human and veterinary parasitology, public health, microbiology, ecology, epidemiology and biochemistry.

Animal Health Research Reviews

Published in collaboration with the Conference of Research
Workers in Animal Diseases

Editor-in-Chief

C. Gyles, *University of Guelph, Canada*

Animal Health Research Reviews provides an international forum for the publication of reviews and commentaries on all aspects of animal health. Papers include in-depth analyses and broader overviews of all facets of health and science in both domestic and wild animals. Major subject areas include physiology and pharmacology, parasitology, bacteriology, food and environmental safety, epidemiology and virology. The journal will be of interest to researchers involved in animal health, parasitologists, food safety experts and academics interested in all aspects of animal production and welfare.

World's Poultry Science Journal

Published on behalf of
The World's Poultry Science Association

Editor

Lucy Waldron, *LWT Animal Nutrition Ltd, New Zealand*

World's Poultry Science Journal provides authoritative reviews in poultry science and an international forum for the exchange and dissemination of information including research, education and industry organisation. Each issue includes poultry industry-related news, regional reports on global developments in poultry, reports from specialist scientific working groups, book reviews, association news and a calendar of forthcoming events.

Coverage includes breeding, nutrition, welfare, husbandry, production systems, processing, product development, physiology, egg and meat quality, industry structure, economics and education.

The journal is of interest to academics, researchers, students, extension workers and commercial poultry producers.
