New and Forthcoming Titles from Cambridge!

Combinatorial Games

Tic-Tac-Toe Theory

József Beck

"A most thorough and useful treatment of the subject (so far insufficiently presented in the literature), with an enormous store of results, links with other theories, and interesting open problems."

–*Mathematical Reviews*

Encyclopedia of Mathematics and its Applications

\$161.00: Hb: 978-0-521-46100-9: 748 pp.
\$65.00: Pb: 978-0-521-18475-5

Reversibility and Stochastic Networks

F. P. Kelly

1. Markov processes and reversibility; 2. Migration processes; 3. Queueing networks; 4. Examples of queueing networks; 5. Electrical analogues; 6. Reversible migration processes; 7. Population genetics models; 8. Clustering processes; 9. Spatial processes; References; Symbol index; Subject index.

Cambridge Mathematical Library

\$49.00: Pb: 978-1-107-40115-0: 238 pp.

Boolean Functions Volume 1: Theory, Algorithms, and Applications

Yves Crama
and Peter L. Hammer

Encyclopedia of Mathematics and its Applications

\$150.00: Hb: 978-0-521-84751-3: 710 pp.

Second Edition

Information Theory Coding Theorems for Discrete Memoryless Systems

Imre Csiszár and János Körner

\$99.00: Hb: 978-0-521-19681-9: 522 pp.

Models and Games

Jouko Väänänen

*Cambridge Studies in
Advanced Mathematics*

\$65.00: Hb: 978-0-521-51812-3: 380 pp.

The Design of Approximation Algorithms

David P. Williamson
and David B. Shmoys

\$55.00: Hb: 978-0-521-19527-0: 516 pp.

Matrices and Graphs in Geometry

Miroslav Fiedler

*Encyclopedia of Mathematics and
its Applications*

\$90.00: Hb: 978-0-521-46193-1: 206 pp.

Surveys in Combinatorics 2011

*Edited by Robin Chapman
London Mathematical Society
Lecture Note Series*

\$80.00: Pb: 978-1-107-60109-3: 446 pp.

Sources in the Development of Mathematics Series and Products from the Fifteenth to the Twenty-first Century

Ranjan Roy

\$99.00: Hb: 978-0-521-11470-7: 1,000 pp.

Iterative Methods in Combinatorial Optimization

Lap-Chi Lau, R. Ravi,
and Mohit Singh

*Cambridge Texts in
Applied Mathematics*

\$99.00: Hb: 978-1-107-00751-2: 256 pp.
\$39.99: Pb: 978-0-521-18943-9

Graph-based Natural Language Processing and Information Retrieval

Rada F. Mihalcea
and Dragomir R. Radev

\$65.00: Hb: 978-0-521-89613-9: 208 pp.

Lectures in Game Theory for Computer Scientists

*Edited by Krzysztof R. Apt
and Erich Grädel*

\$72.00: Hb: 978-0-521-19866-0: 308 pp.

Prices subject to change.

Theory and Practice of Logic Programming

Published for the Association for Logic programming

Editor-in-Chief

I Niemelä, *Helsinki University of Technology, Finland*

Theory and Practice of Logic Programming emphasises both the theory and practice of logic programming. Logic programming applies to all areas of artificial intelligence and computer science and is fundamental to them. Among the topics covered are AI applications that use logic programming, logic programming methodologies, specification, analysis and verification of systems, inductive logic programming, multi-relational data mining, natural language processing, knowledge representation, non-monotonic reasoning, semantic web reasoning, databases, implementations and architectures and constraint logic programming.

SUBSCRIPTIONS

Combinatorics, Probability and Computing (ISSN: 0963-5483) is published bimonthly in 2011 in January, March, May, July, September and November by Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge, CB2 8RU, UK / Cambridge University Press, 32 Avenue of the Americas, New York, N.Y. 10013–2473. The subscription price of Volume 20, 2011 is £380 net (USA, Canada and Mexico US\$670) post free, institutions print and electronic; institutions electronic only £340 / \$600; single parts cost £70 net (USA, Canada and Mexico US\$123) plus postage. Prices include delivery by air. Six parts form a volume. Orders must be accompanied by payment, may be sent to any bookseller, subscription agent or to the publisher: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge, CB2 8RU, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 100 Brook Hill Drive, West Nyack, New York 10994-2133. EU subscribers outside the UK who are not registered for VAT should add VAT at their county's rate. VAT registered subscribers should provide their VAT registration number. Japanese prices for institutions are available from Kinokuniya Company Ltd., P.O. Box 55, Chitose, Tokyo 156, Japan. Copies of the Journal for subscribers in the USA, Canada and Mexico are sent by air to New York. Periodical postage paid at New York, N.Y. and additional mailing offices. POSTMASTER Send address changes to Combinatorics, Probability and Computing, Cambridge University Press, 100 Brook Hill Drive, West Nyack, N.Y. 10994-2133.

Claims for missing issues can only be considered if made immediately upon receipt of the subsequent issue. Copies of back numbers are available from Cambridge University Press.

COPYING This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA. 01923, USA. Organisations in the USA who are also registered with the C.C.C. may therefore copy material (beyond the limits permitted by section 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0963-5483/11 \$16.00. Organisations authorised by the Copyright Licensing Agency may also copy material subject to the usual conditions. ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorised to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge University Press.

Cover design by Gabriella Bollobás based on a tessellation by Andreas Dress.

INSTRUCTIONS FOR AUTHORS

Editorial policy The journal welcomes submissions in any of the areas of Combinatorics, Probability, or Computer Science, not just those dealing explicitly with relations between the three. Its scope covers combinatorics in a broad sense, including classical and algebraic graph theory, probabilistic methods, random structures, combinatorial probability and limit theorems for random combinatorial structures; and the theory of algorithms, including complexity theory, randomised algorithms, probabilistic analysis of algorithms, computational learning theory and optimisation.

Submission of manuscripts Authors are strongly encouraged to submit papers electronically, ideally in the form of a pdf or postscript file. Papers should be sent to the editorial office at cpc@msci.memphis.edu, or can alternatively be submitted through any member of the Editorial Board. Papers may also be submitted in hard copy: three copies should be sent accompanied by the author's address, telephone, fax number, and email address.

Submission of a paper is taken to imply that it has not been previously published and that it is not being considered for publication elsewhere. Authors of articles published in the journal assign copyright to Cambridge University Press and will receive a copyright assignment form for signature upon acceptance of their paper.

On final acceptance of a paper, authors will be asked to send LaTeX source code, along with figure files and author-defined macros, to the editorial office. The publisher reserves the right to typeset any article by conventional means if the author's LaTeX code presents problems in production.

Layout of manuscripts Papers should begin with an abstract of not more than 300 words. References should be listed in alphabetical order at the end of the main text.

Proof reading Typographical or factual errors only may be changed at proof stage. The publisher reserves the right to charge authors for correction of non-typographical errors. No page charge is made. The journal sends author proofs in pdf format, but requires a marked hard copy to be returned to the publisher unless corrections are very light. See instructions with the pdf proof.

Offprints No paper offprints are provided, but a pdf of the published article will be sent to the corresponding author.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

Combinatorics, Probability & Computing

CONTENTS

YAHYA OULD HAMIDOUNE <i>the</i> Mauritanian mathematician 1948 – 11 March 2011	641
ALAIN PLAGNE	
PHILIPPE FLAJOLET 1 December 1948 – 22 March 2011	647
BRUNO SALVY, BOB SEDGEWICK, MICHELE SORIA, WOJCIECH SZPANKOWSKI AND BRIGITTE VALLÉE	
Concave Majorants of Random Walks and Related Poisson Processes	651
JOSH ABRAMSON AND JIM PITMAN	
First Passage Percolation on the Erdős–Rényi Random Graph	683
SHANKAR BHAMIDI, REMCO VAN DER HOFSTAD AND GERARD HOOGHIEMSTRA	
An Improvement of the Lovász Local Lemma via Cluster Expansion	709
RODRIGO BISSACOT, ROBERTO FERNÁNDEZ, ALDO PROCACCI AND BENEDETTO SCOPPOLA	
Karp–Sipser on Random Graphs with a Fixed Degree Sequence	721
TOM BOHMAN AND ALAN FRIEZE	
Daisies and Other Turán Problems	743
BÉLA BOLLOBÁS, IMRE LEADER AND CLAUDIA MALVENUTO	
On r -Cross Intersecting Families of Sets	749
PETER FRANKL AND NORIHIDE TOKUSHIGE	
Zero Biasing and Jack Measures	753
JASON FULMAN AND LARRY GOLDSTEIN	
Random Graphs with Few Disjoint Cycles	763
VALENTAS KURAUSKAS AND COLIN MCDIARMID	
On the Distribution of Three-Term Arithmetic Progressions in Sparse Subsets of F_p^n	777
HOI H. NGUYEN	
On Sumsets of Convex Sets	793
TOMASZ SCHOEN AND ILYA D. SHKREDOV
