

ESSENTIAL NEUROSCIENCE FROM CAMBRIDGE

Clinics in Developmental Medicine

Published in North America by agreement with Mac Keith Press

Diseases of the Nervous System in Childhood

Jean Aicardi

A comprehensive description of the neurological disorders of children. Covers all clinical aspects of child neurology and all significant diseases of the central and peripheral nervous systems from the fetal period to adolescence.

1992 1000 pp. 41273-0 Hardcover \$155.00

Current Concepts in Spina Bifida and Hydrocephalus

Edited by Carys M. Bannister and Brian Tew

Presents an up-to-date view on the current diagnosis, investigation, and treatment of spina bifida and hydrocephalus.

1992 250 pp. 41279-X Hardcover \$54.95

The Neurophysiological Examination of the Newborn Infant

Edited by J. A. Ayre

An up-to-date description of the neurophysiological examination techniques and evaluates their importance in the care of newborn babies.

1992 200 pp. 41276-5 Hardcover \$49.95

The Aftermath of Stroke

The Experience of Patients and Their Families

Robert Anderson

Documents a study in which 175 stroke patients and their family caregivers were followed from the time of the stroke for a period of eighteen months. Examines their patterns of coping, including physical, social, economic, and emotional aspects.

1992 272 pp. 40196-8 Hardcover \$69.95

Chance and Design

Reminiscences of Science in Peace and War

Alan Hodgkin

A fascinating chronicle of Hodgkin's life, providing a glimpse into the world of Cambridge undergraduates in the thirties, the motivation behind his research into nerve conduction, his work on centimeter radar during World War II, and his life as a Cambridge academic after the war.

1992 423 pp. 40099-6 Hardcover \$59.95

Morphometric Tools for Landmark Data

Geometry and Biology

Fred L. Bookstein

A systematic survey of morphometric methods for landmark data that combines conventional multivariate statistical analysis with themes from plane and solid geometry and from biomathematics to support biological insights into features of many different organs or organisms.

1992 452 pp. 38385-4 Hardcover \$89.95

Successful Lab Reports

A Manual for Science Students

Christopher S. Lobban and Maria Schefter

Bridges the gap between the many books about writing term papers and the advanced books about writing papers for publication in scientific journals, neither of which gives much information on writing science lab reports.

1992 106 pp. 40404-5 Hardcover \$32.95
40741-9 Paper \$11.95

The Design and Analysis of Research Studies

Bryan F. J. Manly

Provides statistical background needed to collect and analyze data of different research designs and introduces new methods of analysis that are proving increasingly popular.

1992 369 pp. 41453-9 Hardcover \$89.95
42580-8 Paper \$37.95

Now in paperback...

Everyday Cognition in Adulthood and Late Life

Edited by Leonard W. Poon, David C. Rubin, and Barbara C. Wilson

708 pp. 42860-2 Paper \$29.95

AMERICAN ORTHOPTIC JOURNAL

FREE!

RETURN THIS AD AND RECEIVE A FREE SAMPLE ISSUE.

Editor: Dr. Thomas D. France Published: 1 / yr.
ISSN: 0065-955X

The official journal of the American Association of Certified Orthoptists, this journal serves as a forum for orthoptists and ophthalmologists to present new material in the fields of amblyopia, strabismus, pediatric ophthalmology.

Rates:

Individuals (must pre-pay): \$22 / yr.
Institutions: \$50 / yr.
Foreign postage (airmail): \$10 / yr.

We accept MasterCard and VISA. Canadian customers
please remit 7% Goods and Services Tax.

Please write for a *free* brochure and back issue list to:
**Journal Division, University of Wisconsin Press,
114 North Murray Street, Madison, WI 53715 USA**
Or call. 608-262-4952, FAX 608-262-7560

Contents continued from back cover

- H.-J. WAGNER, U.D. BEHRENS, 345 The circadian component of spinule dynamics in teleost
M. ZAUNREITER, AND retinal horizontal cells is dependent on the dopaminergic
R.H. DOUGLAS system
- STEVEN H. HENSLEY AND 353 Effects of serotonergic agonists and antagonists on ganglion
JOEL L. COHEN cells in the goldfish retina
- BRUCE G. CALMAN AND 365 Localization of actin filaments and microtubules in the cells
STEVEN C. CHAMBERLAIN of the *Limulus* lateral and ventral eyes
- BAOSONG ZHU, 377 Serotonin synthesis and accumulation by neurons of the
ROBERT GÁBRIEL, AND anuran retina
CHARLES STRAZNICKY
- LUIZ R.G. BRITTO AND 389 Enkephalin-immunoreactive ganglion cells in the pigeon
DÂNIA E. HAMASSAKI-BRITTO retina
- JON H. KAAS AND 399 Area 17 lesions deactivate area MT in owl monkeys
LEAH A. KRUBITZER
- PILAR HERREROS DE TEJADA, 409 Visual thresholds in albino and pigmented rats
DANIEL G. GREEN, AND
- CARMEN MUÑOZ TEDÓ
- FRANK MÜLLER, 415 Actions of GABAergic ligands on brisk ganglion cells in the
REIMUND BOOS, AND cat retina
HEINZ WÄSSLE

CONTENTS

Research Articles

- | | | |
|--|-----|---|
| ANTON REINER | 217 | The neurotensin-related hexapeptide LANT6 is found in retinal ganglion cells and in their central projections in pigeons |
| UWE HAHMANN AND
ONUR GÜNTÜRKÜN | 225 | Visual-discrimination deficits after lesions of the centrifugal visual system in pigeons (<i>Columba livia</i>) |
| AVIRAN ITZHAKI,
SHOSHANA MALIK, AND
IDO PERLMAN | 235 | Spectral properties of short-wavelength (blue) cones in the turtle retina |
| LYNNE KIORPES | 243 | Development of vernier acuity and grating acuity in normally reared monkeys |
| LYNNE KIORPES | 253 | Effect of strabismus on the development of vernier acuity and grating acuity in monkeys |
| PAUL DASSONVILLE,
JOHN SCHLAG, AND
MADELEINE SCHLAG-REY | 261 | Oculomotor localization relies on a damped representation of saccadic eye displacement in human and nonhuman primates |
| STUART D. CRITZ AND
ROBERT E. MARC | 271 | Glutamate antagonists that block hyperpolarizing bipolar cells increase the release of dopamine from turtle retina |
| DENNIS M. DACEY
AND SARAH BRACE | 279 | A coupled network for parasol but not midget ganglion cells in the primate retina |
| DRISS BOUSSAoud,
ROBERT DESIMONE, AND
LESLIE G. UNGERLEIDER | 291 | Subcortical connections of visual areas MST and FST in macaques |
| PAUL G. SHINKMAN,
BRIAN TIMNEY, AND
MICHAEL R. ISLEY | 303 | Binocular depth perception following early experience with interocular torsional disparity |
| DAVID M. SHERRY AND
ROBERT J. ULSHAFFER | 313 | Neurotransmitter-specific identification and characterization of neurons in the all-cone retina of <i>Anolis carolinensis</i> II: Glutamate and aspartate |
| HANS-JOACHIM WAGNER,
AND IRINA WULLE | 325 | Contacts of dopaminergic interplexiform cells in the outer retina of the blue acara |
| R.H. DOUGLAS, H.-J. WAGNER
M. ZAUNREITER, U.D. BEHRENS,
AND M.B.A. DJAMGOZ | 335 | The effect of dopamine depletion on light-evoked and circadian retinomotor movements in the teleost retina |
