Prof. E. J. DENTON, Sc.D., F.I.Biol., F.R.S. (*Physiologist*),  
Royal Society Research Professor of Bristol University

February 1969

JOURNAL OF THE MARINE BIOLOGICAL ASSOCIATION  
INSTRUCTIONS FOR THE PREPARATION  
OF MANUSCRIPTS

TITLE

The title of the paper should be kept as short as possible.

The name of the author at the beginning of the paper should be followed only by senior qualifications.

TEXT

Manuscripts must be typed (double-spaced) on one side of the paper, leaving ample margins, with the folios numbered. Words to be printed in italic should be underlined. The first mention of Latin names of species should be followed by the authority, except where reference is made to a work in which the authority appears (e.g. *Plymouth Marine Fauna*).

Manuscripts should be as concise as possible. Undue length will undoubtedly lead to delay in publication as the paper will be returned to the author for shortening.

All linear measurements and weights should be in the metric scale.

For symbols and abbreviations, the recommendations of the Royal Society (1951) are followed.

TABLES

Tables should be set out on separate sheets numbered in Arabic numerals, and given a concise heading.

TEXT-FIGURES

Text-figures should be in black ink. It is important to make the lines sufficiently black. Areas to be mechanically stippled should be indicated by light-blue pencil shading.

No drawing should be so large that it must be reduced to less than one-third of its original size. The degree of reduction need not be inserted by the author.

Illustrations requiring lettering should not be drawn on Ethulon.

The size of the printed area of the *Journal* page is 18 × 12 cm. The maximum size for a full-page figure (with legend) is 19½ × 13½ cm.

Lettering, numerals, etc., should be marked clearly in blue pencil and indicating the position in which they are to be inserted by an arrow in blue pencil. This should be kept to a workable minimum, all details being included in the legend.

Axes and graduation marks on graphs must be inked in. The lines on graph paper

are not normally reproduced, and should be blue or faint grey.

Legends for figures must be typed all together on a separate sheet, and not inserted on the actual illustrations.

Text-figures are numbered in arabic numerals, and referred to in the text as 'Fig. 1', etc. Where there is a plate containing several figures, the text-figures are referred to as 'Text-fig. 1', etc.

Divisions of plates, or separate figures on one plate, are indicated by capital letters.

All line-drawings are printed as text-figures, as well as photographs for which fine detail is not required.

PLATES

Photographs should be on smooth-surfaced paper, semi-matt or glossy. The edges of the photograph must be trimmed square. It is important that the background in the photograph be of a uniform tone and free from blemishes. Where several photographs make up a single plate, they are numbered 'Fig. 1', etc.

SUMMARY

Each paper must be accompanied by an informative Summary, giving the main results of the work published.

REFERENCES

References are listed alphabetically at the end of the paper. The full title of the paper must be given. Titles of papers, but not of books, are decapitalized. Titles of Journals are abbreviated as in the *World List of Scientific Publications* (4th ed., 1963 on). Volume (Vol.), Band (Bd.), or Tome (T.) numbers are in Arabic numerals. Where a volume appears in parts the part need only be specified where each has separate pagination. References to books should include the publisher. Citations in text to be given by author's name followed by date in brackets.

Examples:

MARSHALL, S. M., NICHOLLS, A. G. & ORR, A. P., 1939. On the growth and feeding of young herring in the Clyde. *J. mar. biol. Ass. U.K.*, Vol. 23, pp. 427-55.  
RUSSELL, F. S. & YONGE, C. M., 1928. *The Seas*. 379 pp. London: Frederick Warne.

**Authors are requested to see that their manuscripts are in finished form and completely ready for publication so that corrections may be reduced to a minimum, and these are confined as far as possible to the first proof. If the cost for corrections exceeds a reasonable figure, the author is liable to be charged to the full extent of the excess.**

SUBSCRIPTIONS

*Journal of the Marine Biological Association of the United Kingdom* is published quarterly. Single parts cost £4 net (\$13.50 in the U.S.A.) plus postage.

Four parts form a volume. The subscription price of a volume (which includes postage) is £14 net (\$47.00 in the U.S.A.).

Application to mail at second class postage rates is pending at New York, N.Y.

# Fish Migration

F. R. HARDEN JONES

viii+336 pages

86 illustrations

£6 net

This scholarly and unique work is a survey of the research work carried out on the problems of fish migration, and is an attempt to determine whether enough has yet been done to account for the known facts on the subject. The biology of fish migration and orientation and the different methods used for its study are covered with particular emphasis on the salmon, eel, cod, plaice, and herring.

'... in my view it is one of the most important postwar additions to the literature on fish biology and will probably remain the most complete work on the subject of fish migration for many years to come. It should be read not only by all students and research workers in the fish biology field but also by workers engaged in studies of the migrations and movements of other animal groups.'

## The Journal of General Microbiology

---

Edited by B. C. J. G. KNIGHT *University of Reading*

and A. F. B. STANDFAST *Lister Institute of Preventive Medicine*

*The Journal of General Microbiology* publishes original work on algae, bacteria, micro-fungi, protozoa and other micro-organisms with particular emphasis on general studies of these forms and their activities. The journal is published by Cambridge University Press for the Society for General Microbiology and the Proceedings of the Society are published in appropriate issues.

*The Journal of General Microbiology* is published fifteen times a year. Annual subscription £25 net. Please write for a specimen copy.
