

Akira Iriye's startling new view of the war in the Pacific.

Power and Culture

The Japanese-American War, 1941-1945

Akira Iriye

In this bold interpretation of the war in the Pacific, Iriye convincingly demonstrates that many Japanese leaders shared with their American counterparts an essentially Wilsonian vision of international cooperation.

"Iriye's approach and conclusions are original and stimulating. This is a book which all students of the Far Eastern war will need to read and ponder." — Christopher Thorne

"A strikingly revisionist argument . . . What you get from Iriye's book is not the traditional picture of Japan and the United States locked in irreconcilable conflict, but rather a portrait of two enemies moving along compatible lines toward a viable rapprochement." — Robert Dallek

Chinese Revolutionary

Memoirs 1919–1949

WANG FAN-HSI, translated by GREGOR BENTON. The political life on which Wang Fan-hsi looks back in his fascinating memoirs ended with him in exile and the Chinese Trotskyist movement, for which he worked for over twenty years, in ruins. Yet this is a valuable record of the Chinese Communist movement; Wang balances harrowing episodes of poverty and imprisonment with descriptions of Chinese cultural and literary life during those years of activity and change.

Memories of Loyang

Yang Hsüan-chih and the Lost Capital (493-534)

W.J.F. JENNER, University of Leeds. Loyang, chosen by the Northern Wei as their new capital, grew rapidly until its population exceeded 500,000; forty-one years later the dynasty collapsed and the city was abandoned. The *Lo-yang chi'ieh-lan chi*, written by a court official, is a lively and graphic guide to Loyang and is notable as it is the earliest surviving substantial description of a Chinese city. In this study, Professor Jenner provides a full translation of Yang's work and also considers the historical background of the city and the political events that shaped and destroyed it.

Islamic Society on the South Asian Frontier

The Māppilas of Malabar, 1498–1922

STEPHEN FREDERIC DALE, Ohio State University. In this study of the Muslims of Kerala in South India from the arrival of Vasco de Gama in 1498 to the Māppila Rebellion of 1921–2, the author examines the tense relations between the Muslims and the Europeans and Hindus of Kerala. Professor Dale focuses on the reasons why their relationship has stimulated the growth of a militant Muslim tradition and shows that this militant tradition is part of a wider pattern of Islamic communities in India and Southeast Asia.

The Singapore Naval Base and the Defence of Britain's Eastern Empire

1919–1941

JAMES NEIDPATH. The world naval balance suffered a revolutionary transformation as a result of the First World War and the surrender of the Kaiser's High Seas Fleet in 1918. The Pacific became the focus of naval interest, and Britain began the construction of a great naval base at Singapore. Neidpath examines the political, naval, and economic arguments for and against the base and the collapse of the "Singapore Policy" by 1940 in the face of German and Italian hostility.

THE MODERNIZATION OF CHINA

GILBERT ROZMAN, Editor

Thomas P. Bernstein, Cyril E. Black, Sally Borthwick, Marius B. Jansen, Marion J. Levy, Jr., F.W. Mote, Ramon H. Myer, Gilbert Rozman, and Lynn T. White III

Written by a multi-disciplinary team of scholars,

this is the first general, one-volume history of modern China based on the latest research. Original research by each contributor takes into account the heritage of pre-modern Chinese values and institutions and the impact of, and interaction with, modern influences of Japan and the United States. Finally, the book explores the basic responses that have shaped the course of China's modernization and that continue to form the background for contemporary development.

INTELLECTUALS AND THE STATE IN MODERN CHINA A Narrative History

JEROME B. GRIEDER

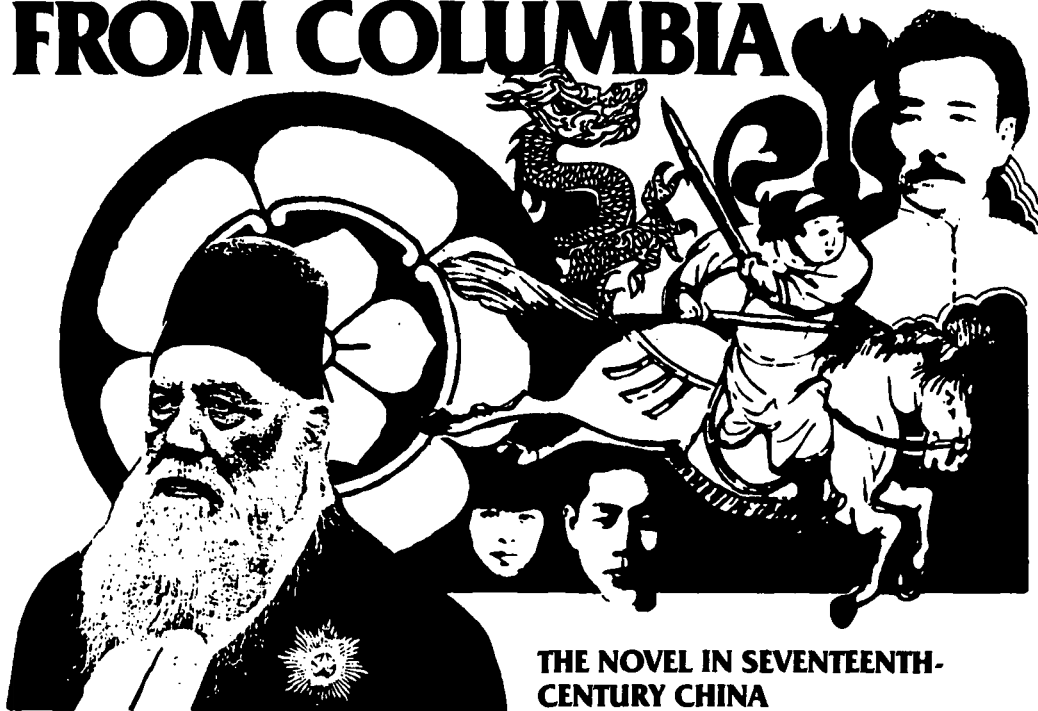

Throughout China's history, from the Boxer Rebellion to Mao, a conspicuous minority felt it their duty to persuade others to react in positive ways to the push of change and the tug of tradition. These were the intellectuals—bright, responsive, expressive thinkers bent on preserving a distinctly Chinese approach to life. This book is the first panoramic tale, often in their own words, of their lives, times, and deeds.

When the Twain Meet

The Rise of Western Medicine in Japan

John Z. Bowers, M.D.

Between 1641 and 1853, Japan was officially closed to all Western influences and ideas. Unofficially, however, Western medical knowledge flowed into the country through the Dutch trading post at Nagasaki. *When the Twain Meet* charts the progress of European medical influences in Japan from the relatively clandestine teachings of the Dutch through the periods of British and German dominance which followed the "opening" of the nation and which radically altered the nature of Japanese medical practice. Along the way, John Z. Bowers presents a fascinating picture of Japanese medicine during the closed period and offers a new look at life in the nineteenth-century German community in Tokyo. \$14.00

The Ming Dynasty in Decline

Ray Huang

In 1587 nothing very special happened in China. Yet Huang's account of the events of this year and his vivid portrayal of the lives of seven officials prominent in the court reveal much about China's perennial inability to adapt to change, a failure which led to the decline of the Ming dynasty. in Contemporary China**

Elisabeth Croll

Croll examines legal efforts by the state to change the pattern of marriage in the People's Republic of China, and assesses their impact in cities and in rural communities. Her study suggests that Western sociological analyses of the "modernization" of marriage and kinship structures may be inappropriate in considering the case of the People's Republic.

Two More Novels by R. K. Narayan

"R. K. Narayan. . . has been compared to Gogol in England, where he has acquired a well-deserved reputation. The comparison is apt, for Narayan, an Indian, is a writer of Gogol's stature, with the same gift for creating a provincial atmosphere in a time of change. . . . One is convincingly involved in this alien world without ever being aware of the technical devices Narayan so brilliantly employs."—Anthony West, *The New Yorker*

Lustful Maidens and Ascetic Kings

Buddhist and Hindu Stories of Life

Roy C. Amore, University of Windsor, and **Larry D. Shinn**, Oberlin College. The telling of tales has been and continues to be a basic method of religious instruction in India. Animal fables, fairy tales, epic stories of heroes, narratives of the lives of the Buddha, myths relating the feats of gods and goddesses, and regional folktales of all kinds have been a part of Indian culture for more than three thousand years. Drawing on this rich narrative tradition, *Lustful Maidens and Ascetic Kings* interprets Indian culture through popular religious and secular tales from Hindu and Buddhist literature. Arranged topically and functionally in four chapters to reveal their religious and social teaching, the stories describe and provide models for family and social roles and illustrate such values as courage, generosity, truthfulness, compassion, and detachment. The stories are translated or retold with a running commentary by the authors. "A brilliant success."—K.L. Seshagiri Rao, University of Virginia

This study of the mythology of Śiva is, without doubt, such a book . . . a cause for celebration . . . A book that can be read for enjoyment, as well as enlightenment, by Indologists and laymen alike . . . one of the half-dozen most important studies of Indian religion and culture in modern times."—*Journal of Asian Studies*. This book is the first collection of papers by well-known scholars in psychiatry, psychology, and the social sciences that examines normal behavior and psychopathology among Chinese. The contributors have had extensive firsthand research experience in Chinese culture and many are themselves Chinese. The book contains chapters on historical aspects of neo-Confucian behavioral paradigms, suicide and the family, legal aspects of insanity, and traditional Chinese beliefs about mental illness. There are chapters on moral development, childhood psychopathology, deviant marriage patterns, and styles of drinking. The first systematic study of *shen-k'uei*, a Chinese culture-bound syndrome, is presented along with a review of Chinese culture-bound syndromes and of the more general influences of Chinese cultural beliefs and behavioral norms on the symptomatology, illness experience, course, and treatment response of psychiatric disorders. This collection is intended to fill the need for a broad based review of the current status of scholarly understanding of individual behavior and mental illness in Chinese culture.

The author explores this question, pointing to specific features of Japanese design as represented in such fields as painting, prints, textiles, lacquer, metalware, and garden design from the sixth to the twentieth century.

"A remarkably clear and cogent presentation of the human person as seen and lived in Zen Buddhism. RECENT

The Collapse of the Tokugawa Bakufu (1862–1868)

Conrad Totman, Northwestern
University

624 pages, 1980, maps, **\$22.50**

"Totman gives us a completely different look at a period we thought we knew, and the product is a work of engrossing interest backed by impressive scholarship."

—*Journal of Asian Studies* (November 1980)

"What Totman has said about the Bakufu necessitates some re-thinking by other scholars about the whole pattern of Japanese development in the mid-nineteenth century. That makes his book a major achievement."

—*Monumenta Nipponica* (XXXV.4)

"This is easily the fullest and best English language account of Japanese politics in the 1860s as viewed from the bakufu. The scholarship is meticulously sound, but Totman does not allow the paraphernalia of historiography to creep between him and his readers and spoil his lively narrative."

—*History* (August 1980)

"The study of Japanese history in America can be seen to have developed in diversity as well as in depth over the past ten years, and this book represents one of the finest achievements of these studies in the field of Meiji Restoration."

—*Japan Quarterly* (October–December 1980)

Politics of the Meiji Press

The Life of Fukuchi Gen'ichirō
James L. Huffman, Wittenberg
University

288 pages, 1980, illustrations, **\$15.00**

"Huffman has read Fukuchi's editorials and his autobiography to prepare a superbly sensitive appreciation of a gifted, complex, often contradictory individual."

—*Journal of Asian Studies* (November 1980)

"This biography is a pioneering job in the Western study of the Japanese press."

—*Monumenta Nipponica* (XXXV.4)

"Huffman not only holds an M.A. in journalism and a Ph.D. in Japanese history, he also has experience as a practicing journalist both in Japan and the United States. These qualifications serve him effectively in his eminently readable narrative biography of Fukuchi Gen'ichirō."

—*History* (July 1980)

"By seeing Fukuchi as a mirror of his time, Professor Huffman has succeeded in describing clearly the political situation in the early Meiji era as well as the history of the development of Japanese newspapers. In this respect, this book is usefully informative to Japanese as well as foreign readers."
