## Taking Responsibility for Children

Studies in Childhood and Family in Canada Series

What do we as a society, and as parents in particular, owe to our children? Each chapter in *Taking Responsibility for Children* offers part of an answer to that question. Although they vary in the approaches they take and the conclusions they draw, each contributor explores some aspect of the moral obligations owed to children by their caregivers. Some focus primarily on the responsibilities of parents, while others focus on the responsibilities of society and government.

## Leaving Fundamentalism

*Personal Stories*

G. Elijah Dann, editor  
\$24.95 Paper • 978-1-55458-026-2  
Life Writing Series

In a time when religious conservatives have placed their faith and values at the forefront of the so-called "culture wars," this book is extremely relevant. These stories provide an intimate look behind church life, and promote an understanding of those who have been deeply involved in the conservative Christian church.

These autobiographies come from within the congregations of religious fundamentalists, where their highly idealized faith meets the reality of everyday life. Told from the perspective of distance gained by leaving fundamentalism, each story reveals what it is like to go through the experiences, thoughts, passions, and pains that, for many of the writers, are still raw.

# GLOBAL JUSTICE, GLOBAL INSTITUTIONS

---

CJP Supplementary Volume 31

Edited by Daniel Weinstock

ISSN 0229-7051

ISBN 978-0-919491-31-1

\$44.95 CDN \$44.95 US

## ABOUT THE BOOK

Defining the principles of justice that ought to govern the global economic and political sphere is one of the most urgent tasks that contemporary political philosophers face. But they must also contribute to working through the institutional implications of these principles. How might principles of global justice be realized? Must the institutions that aim to implement them be transnational, or can global justice be attained within the context of the state system? Can institutions of democratic self-governance be imagined beyond the nation-state? These are just some of the questions that still face political philosophers even when issues of abstract principle have been addressed.

This volume establishes a dialogue between philosophers working at all levels of abstraction. Some of the authors are concerned with the grounds and scope of the obligations that bind the citizens and governments of rich countries to those of poorer nations. But many examine the question of how these obligations can be satisfied, both within existing institutional frameworks and beyond. Together their essays constitute a major contribution to the advancement of both the theoretical understanding and the practical requirements of global justice.

Edited by

JILLIAN SCOTT MCINTOSH

\$22.00 • 264 pp.

ISBN 0-919491-27-8

ISSN 0229-7051

What might we know if we knew that the mind is an adaptation? What could knowledge of history or circumstances tell us about the individuation of content or the nature/rôle of vision? What can science—evolutionary theory in particular—tell us about the metaphysics of mind?

This collection of new essays concerning the mind explores the prospects for, and limits of, appealing to facts about evolutionary history and current environment-organism interaction in explaining the nature and workings of the mental. Each paper addresses empirical data from evolutionary theory, ethology, psychology, or neuroscience, though they vary with regard to their optimism as to what such discoveries can tell us about particular issues in the philosophy of mind.

# • MORAL EPISTEMOLOGY NATURALIZED

• CJP SUPPLEMENTARY VOLUME 26

Edited by

RICHMOND CAMPBELL &

BRUCE HUNTER

\$25.00 • 241 pp.

ISBN 0-919491-26-X

ISSN 0045-5091

A traditional task of epistemology is to establish and defend systematic standards that must be met in order for us to have knowledge or justified beliefs. A naturalized epistemology tries to arrive at such standards through an empirical investigation into how we interact with our fellows and the world around us, what we seek in these activities, and the particular ways in which we can and cannot succeed. This approach is a radical departure from tradition because its means of investigation is empirical.

Nevertheless, since its inception three decades ago, this style of epistemology has become a powerful trend in contemporary theory of knowledge. This collection breaks new ground in extending the insights and methodology of naturalized epistemology to the subject of moral knowledge and moral theory.
