REGISTRATION NOW OPEN

SAVE THE DATE

**BOSTON, MA
OCT. 11 – 15**

REGISTRATION IS OPEN FOR IDSA, SHEA, PIDS AND HIVMA MEMBERS, AS WELL AS SIDP MEMBERS WHO ARE NOT A MEMBER OF IDSA/HIVMA/SHEA/PIDS.

**SIDP members are not currently eligible for IDWeek member rates.*

**Don't miss the
premier international
infectious diseases
meeting of the year!**

See You There!

IMPORTANT DATES

**INTERACTIVE PROGRAM
PLANNER NOW AVAILABLE**

**REGISTRATION OPENS TO
ALL ATTENDEES, JUNE 6**

**LATE BREAKER
ABSTRACT SUBMISSION
SITE OPENS, JUNE 13**

ADVANCING SCIENCE, IMPROVING CARE

CONTENTS

SHEA/IDSA/APIC Practice Recommendation

- 1039** SHEA/IDSA/APIC Practice Recommendation: Strategies to prevent methicillin-resistant *Staphylococcus aureus* transmission and infection in acute-care hospitals: 2022 Update
Kyle J. Popovich, Kathy Aureden, D. Cal Ham, Anthony D. Harris, Amanda J. Hessels, Susan S. Huang, Lisa L. Maragakis, Aaron M. Milstone, Julia Moody, Deborah Yokoe and David P. Calfee

Original Articles

- 1068** Prevalence and trends of *Clostridioides difficile* infection among persons requiring maintenance hemodialysis: A systematic review and meta-analysis
Yousef M. Elfanagely, Joshua Ray Tanzer, Anuoluwapo Shobayo, Mouhand F.H. Mohamed, Jonathan J.C. Ho, Douglas Shemin, Laura Pavlech and Erika M.C. D'Agata
- 1076** Trends in the incidence of *Clostridioides difficile* infection in adults and the elderly insured by Medicaid compared to commercial insurance or Medicare only
Margaret A. Olsen, Dustin Stwalley, Andrew D. Tipping, Matthew R. Keller, Holly Yu and Erik R. Dubberke
- 1085** Determinates of *Clostridioides difficile* infection (CDI) testing practices among inpatients with diarrhea at selected acute-care hospitals in Rochester, New York, and Atlanta, Georgia, 2020–2021
Scott K. Fridkin, Udodirim N. Onwubiko, William Dube, Chad Robichaux, Jessica Traenkner, Dana Goodenough, Frederick J. Angulo, Joann M. Zamparo, Elisa Gonzalez, Sahil Khanna, Christopher Myers and Ghinwa Dumyati
- 1093** Clinical, microbiological, and genomic characteristics of clade-III *Candida auris* colonization and infection in southern California, 2019–2022
Annabelle de St. Maurice, Urvashi Parti, Victoria E. Anikst, Thomas Harper, Ruel Mirasol, Ayrton J. Dayo, Omai B. Garner, Kavitha K. Prabaker and Shangxin Yang
- 1102** The interplay of infectious diseases consultation and antimicrobial stewardship in candidemia outcomes: A retrospective cohort study from 2016 to 2019
Jonathan H. Ryder, Trevor C. Van Schooneveld, Elizabeth Lyden, Razan El Ramahi and Erica J. Stohs
- 1108** Characterizing the relationship between coronavirus disease 2019 (COVID-19) and central-line-associated bloodstream infection (CLABSI) and assessing the impact of a nursing-focused CLABSI reduction intervention during the COVID-19 pandemic
Michael A. Ben-Aderet, Meghan S. Madhusudhan, Pishoy Haroun, Matthew J.P. Almario, Ryan Raypon, Sharon Fawcett, Julie Johnson, Anita Girard, Todd Griner, Lorraine Sheffield and Jonathan D. Grein
- 1116** The role of real-time, on-site, whole-genome sequencing of severe acute respiratory coronavirus virus 2 (SARS-CoV-2) in guiding the management of hospital outbreaks of coronavirus disease 2019 (COVID-19)
Tina M. Marinelli, Leanne Dolan, Frances Jenkins, Andie Lee, Rebecca J. Davis, Simeon Crawford, Blake Nield, Amrita Ronnachit and Sebastiaan J. Van Hal
- 1121** Risk and protective factors for severe acute respiratory coronavirus virus 2 (SARS-CoV-2) infection among healthcare workers: A test-negative case-control study in Québec, Canada
Sara Carazo, Jasmin Villeneuve, Denis Laliberté, Yves Longtin, Denis Talbot, Richard Martin, Geoffroy Denis, Francine Ducharme, Bianka Paquet-Bolduc, Geneviève Anctil, Sandrine Hegg-Deloye and Gaston De Serres

- 1131** Evaluation of a Web-based learning system for skills in removing personal protective equipment for highly infectious diseases—A randomized controlled trial
Shota Sato and Sachiko Iijima
- 1137** The importance of viruses in ventilator-associated pneumonia
Andrew F. Shorr, Daniel T. Ilges, Scott T. Micek and Marin H. Kollef
- 1143** Derivation and validation of a risk assessment model for drug-resistant pathogens in hospitalized patients with community-acquired pneumonia
Michael B. Rothberg, Sarah Haessler, Abhishek Deshpande, Pei-Chun Yu, Peter K. Lindenauer, Marya D. Zilberberg, Thomas L. Higgins and Peter B. Imrey

Concise Communication

- 1151** Patient-level information underlying overdiagnosis of urinary tract infections in nursing homes: A discrete choice experiment
Christopher J. Wretman, Marcella H. Boynton, John S. Preisser, Sheryl Zimmerman and Christine E. Kistler
- 1155** Pediatric infectious disease physician perceptions of antimicrobial stewardship programs
Jason G. Lake, Michael J. Durkin, Philip M. Polgreen, Susan E. Beekmann, Adam L. Hersh and Jason G. Newland
- 1159** Characterization of resistance to newer antimicrobials among carbapenem-resistant *Klebsiella pneumoniae* in the post-acute-care setting
Helen L. Zhang, Kyle J. Gontjes, Jennifer H. Han, Kevin Alby, Zena Lapp, Evan Snitkin, Ellie J.C. Goldstein, Sean Muldoon, Pam Tolomeo and Ebbing Lautenbach
- 1163** Prospective evaluation of data-driven models to predict daily risk of *Clostridioides difficile* infection at 2 large academic health centers
Meghana Kamineni, Erkin Ötleş, Jeeheh Oh, Krishna Rao, Vincent B. Young, Benjamin Y. Li, Lauren R. West, David C. Hooper, Erica S. Shenoy, John G. Gutttag, Jenna Wiens and Maggie Makar
- 1167** Identifying barriers to compliance with a universal inpatient protocol for *Staphylococcus aureus* nasal decolonization with povidone-iodine
Rebecca A. Stern, Bryan D. Harris, Mary DeVault and Thomas R. Talbot
- 1171** Exeporfinium chloride (XF-73) nasal gel dosed over 24 hours prior to surgery significantly reduced *Staphylococcus aureus* nasal carriage in cardiac surgery patients: Safety and efficacy results from a randomized placebo-controlled phase 2 study
Julie E. Mangino, Michael S. Firstenberg, Rita K.C. Milewski, William Rhys-Williams, James P. Lees, Aaron Dane, William G. Love and Jesus Gonzalez Moreno
- 1174** Effect of nasal mupirocin treatment on extranasal carriage of methicillin-resistant *Staphylococcus aureus* among pediatric patients admitted to the neonatal intensive care unit
Miki Matsui and Yoshinori Katayama
- 1177** Methicillin-resistant *Staphylococcus aureus* bacteremia during the coronavirus disease 2019 (COVID-19) pandemic: Trends and distinguishing characteristics among patients in a healthcare system in New York City
Saif Aslam, Habtamu Asrat, Rina Liang, Wenqi Qiu, Subin Sunny, Anna Maro, Marie Abdallah, Mary Fornek, Briana Episcopia and John Quale

- 1180** Trends in *Clostridioides difficile* infection rates in Canadian hospitals during the coronavirus disease 2019 (COVID-19) pandemic
Kelly B. Choi, Tim Du, Anada Silva, George R. Golding, Linda Pelude, Robyn Mitchell, Wallis Rudnick, Romeo Hizon, Ghada N Al-Rawahi, Blanda Chow, Ian Davis, Gerald A. Evans, Charles Frenette, Jennie Johnstone, Pamela Kibsey, Kevin C. Katz, Joanne M. Langley, Bonita E. Lee, Yves Longtin, Dominik Mertz, Jessica Minion, Michelle Science, Jocelyn A. Srigley, Paula Stagg, Kathryn N. Suh, Nisha Thampi, Alice Wong, Jeannette L. Comeau, Susy S. Hota and for the Canadian Nosocomial Infection Surveillance Program (CNISP)
- 1184** Single-center investigation on central-line-associated bloodstream infections and blood-culture contamination during the early months of the coronavirus disease 2019 (COVID-19) pandemic
Beilin Wang, Roberto Pineda-Reyes, Marisa C. Nielsen, Gwen Baillargeon, Jacques G. Baillargeon and April N. McDougal
- 1187** Severe acute respiratory coronavirus virus 2 (SARS-CoV-2) outbreak investigation in a hospital emergency department—California, December 2020–January 2021
Ruoran Li, Elizabeth Beshearse, Deborah Malden, Holly Truong, Vit Kraushaar, Brandon J. Bonin, Janice Kim, Idamae Kennedy, Jennifer McNary, George S. Han, Sarah L. Rudman, Joseph F. Perz, Kiran M. Perkins, Janet Glowicz, Erin Epton, Isaac Benowitz and Elsa Villarino
- 1193** Asymptomatic severe acute respiratory syndrome coronavirus-2 (SARS-CoV-2) infection in adults is uncommon using rigorous symptom characterization and follow-up in an acute-care adult hospital outbreak
Heidi M. O’Grady, Devika Dixit, Zoha Khawaja, Kate Snedeker, Jennifer Ellison, Joyce Erebor, Peter Jamieson, Amanda Weiss, Daniel Salcedo, Kimberley Roberts, Karen Wiens, Nicholas Etches, Jenine Leal and John M. Conly
- 1196** Determining coronavirus disease 2019 (COVID-19) community incidence threshold for preoperative testing
Judy Zhou, Christopher Wituik, Mohammed Al-Salem, Alanoud Aljarbou, Jonah Dekker, Saba Karimi and Dominik Mertz
- 1199** The role of procalcitonin and Clinical Pulmonary for Infection Score (CPIS) score to reduce inappropriate antibiotics use among moderate to severe coronavirus disease 2019 (COVID-19) pneumonia: A quasi-experimental multicenter study
Ornicha Sathitakorn, Siriththin Chansirikarnjana, Kittiya Jantarathaneewat, David J. Weber, David K. Warren, Piyaporn Apisarnthanarak, Pichaya Tantiyavarong and Anucha Apisarnthanarak
- 1204** Mitigating healthcare staffing shortages: Should healthcare workers with severe acute respiratory coronavirus virus 2 (SARS-CoV-2) household exposures work?
Ana C. Blanchard, Valérie Lamarre, Josée Lamarche, Nathalie Audy and Caroline Quach

Corrigendum

- 1207** Association between level of care and colonization with resistant gram-negative bacteria among nursing-home residents – CORRIGENDUM
Timileyin Y. Adediran, Kinjal N. Sethuraman, Surbhi Leekha and Mary-Claire Roghmann

Erratum

- 1208** Semiautomated surveillance of deep surgical site infections after colorectal surgeries: A multicenter external validation of two surveillance algorithms – ERRATUM
Janneke D.M. Verberk, Tjallie I.I. van der Kooi, David J. Hetem, Nicolette E.W.M. Oostdam, Mieke Noordergraaf, Sabine C. de Greeff, Marc J.M. Bonten and Maaike S.M. van Mourik

Infection Control & Hospital Epidemiology (ISSN 0899-823X) is published monthly by Cambridge University Press, One Liberty Plaza, New York, NY 10006, USA.

Editorial Office

Communications should be addressed to the Editor, *Infection Control & Hospital Epidemiology*, One Liberty Plaza, New York, NY 10006 (email: iche.managingeditor@cambridge.org). Contributors should consult the Instructions for Contributors, which is available at the journal's Web site.

Advertising

Please direct advertising inquiries to M. J. Mrvica Associates, 2 West Taunton Avenue, Berlin, NJ 08009 (e-mail: mjmrvica@mrvica.com; telephone: 856-768-9360, fax: 856-753-0064). Publication of an advertisement in *Infection Control & Hospital Epidemiology* does not imply endorsement of its claims by the Society for Healthcare Epidemiology of America, by the Editor, or by Cambridge University Press.

Permissions

Articles may be copied or otherwise reused without permission only to the extent permitted by Sections 107 and 108 of the US Copyright Law. Permission to copy articles for personal, internal, classroom, or library use may be obtained from the Copyright Clearance Center (<http://www.copyright.com>).

email: info@copyright.com). For all other uses, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale, please contact Cambridge University Press. Full details may be found at: www.cambridge.org/about-us/rights-permissions.

Subscriptions

The individual subscription prices for 2023 are: Print & Online: \$305; Online Only: \$236. Individuals have the option to order directly from Cambridge University Press. Institutional print + electronic and e-only subscriptions are available from Cambridge University Press and include unlimited online access; rates are tiered according to an institution's type and research output and may be reviewed at the journal's homepage on Cambridge Core: cambridge.org/ICHE.

Please direct subscription inquiries and requests for back issues to Customer Services at Cambridge University Press, e-mail: subscriptions_newyork@cambridge.org (USA, Canada, and Mexico) or journals@cambridge.org (outside of USA, Canada, and Mexico).

Postmaster: Send address changes to *Infection Control & Hospital Epidemiology*, Cambridge University Press, One Liberty Plaza, New York, NY 10006 USA.

About the cover:

Title: Nile's Joy, Horses & Hope, 2006

Beginning with volume 43 (January 2022), the cover of *Infection Control & Hospital Epidemiology* (ICHE) will feature art inspired by or reflective of topics within the scope of the journal and their impact on patients, healthcare personnel and our society. These topics include healthcare-associated infections, antimicrobial resistance, and healthcare epidemiology. The intent is to feature original artwork that has been created by individuals who have a personal connection to one or more of these topics through their clinical work, research, or experience as a patient or an affected patient's family member, friend or advocate. The goal is to provide readers with a visual reminder of the human impact of the topics addressed in the journal and the importance of the work being done by those who read or contribute to ICHE and by all who are trying to make healthcare safer through the elimination of healthcare-associated infections.

For more information about the ICHE cover and how to submit artwork for consideration for a future cover, please visit the ICHE website: <https://www.cambridge.org/core/journals/infection-control-and-hospital-epidemiology/front-covers>

Artist: Nile Moss (1990-2006)

Medium: Tissue paper, stained glass technique

Nile's parents, Carole and Ty Moss, spoke to ICHE about his artwork.

What was the inspiration for this artwork? Nile began every morning with a loud announcement, "It's going to be such a great day!" At the end of the day, he would jump off the school bus and announce, "I had such a great day!" Nile's love of horses began very early in life thanks to his school's participation at a nearby therapeutic riding center. His horses brought him great joy and his faith gave him the hope and promise of a rainbow every day. This piece was inspired by the love Nile had for his horses, Tex and Clutch.

Why is this work appropriate for the cover of *Infection Control & Hospital Epidemiology*? Nile's art expression and techniques blossomed from August 2005 to April 2006 in his first high school art class. He returned home with this final creation on April 14, 2006. His life ended only days later when physicians failed to recognize the initial symptoms of sepsis caused by methicillin-resistant *Staphylococcus aureus* (MRSA) that he had acquired while receiving care in a local hospital. Nile's story represents the preventable harm that happens when people are unaware and unprepared to protect their loved ones and their patients. Patient safety begins with a robust bench of healthcare professionals, including healthcare epidemiologists, infection preventionists and antimicrobial stewards, that are given the knowledge, tools, training and support they need to do their work effectively. Our healthcare professionals deserve to feel joy and hope at the start of each new day, just as Nile did, and not doubt that their hard work saving lives is appreciated.

What is your personnel connection to the content of ICHE? When Nile died, our lives were changed forever. After researching the "why" and the "how," we decided to become a part of the solution to end preventable harm in honor of Nile. We became educated on the science of infection prevention to help inform and empower the public and educate healthcare professionals about what happens when healthcare facilities don't maintain a culture of safety and allow preventable healthcare-associated infections to occur. We celebrate his life every day by empowering the public and healthcare professionals with our story of prevention and action to end preventable healthcare harm.

Carole and Ty Moss are the founders and Executive Directors of Nile's Project, a non-profit organization founded in 2007 to end unnecessary deaths due to preventable hospital-acquired infections. Nile's Project works with survivors, families, healthcare professionals, public health officials, and other advocacy groups to increase public awareness and advocate for changes that will make the healthcare system safer. For more information, visit www.nilesproject.com.
