Leadership is at the heart of what we do.

At Boca Raton Community Hospital, a 400-bed facility serving the community since 1967, we believe that strong leadership is at the heart of a well-run, successful hospital. We take pride in our state-of-the-art technologies, friendly team of professionals and commitment to excellence.

If you are a strong leader and an innovative thinker dedicated to making a difference in the care of both patients and employees, we'd like to meet you!

INFECTION CONTROL DIRECTOR
Full-Time, Days

Qualified candidates for the position of Infection Control Director will plan, organize and direct all Infection Control staff and activities within the department. Additional responsibilities include managing the efficient utilization of resources and the quality of customer service provided on behalf of the department. A Master's degree or equivalent, 4-10 years of related experience and/or training, or equivalent combination of education and experience required for this position.

Put your heart into a career that you'll love, here at Boca Raton Community Hospital.

MEDICAL CENTER[®]

Director, Epidemiology and Infection Control

The Department of Epidemiology and Infection Control is an extremely dynamic department that is well supported and very active throughout the hospital. The Department leads efforts in the prevention and reduction of health-acquired infections with collaboration throughout the hospital and in conjunction with many physician's champions. The Department has been pro-active in the fight against resistant organisms with a program for control of MRSA and VRE that has been in place for many years.

It will be the responsibility of the Director to provide overall administrative guidance, oversight and supervision. The Director will work in conjunction with the Medical Director of Epidemiology and Infection Control to develop short and long term departmental goals, infection control policies and to analyze infection control data. In addition, responsibilities will include implementation of strategies to reduce healthcare associated infections, and to manage communicable disease exposures, outbreak and cluster investigations.

A successful candidate should have the following qualifications:

- Bachelor's degree required, Master's degree in appropriate health field e.g., Epidemiology, Public Health, Nursing preferred
- Minimum 5 years' experience in acute care hospital epidemiology and infection control, academic medical center experience preferred
- Minimum 5 years' experience in management/supervisory position
- Adult education and group presentations experience
- Current NC License and Certification in Infection Control

Take the Lead in Infection Control

Practical Handbook for Healthcare Epidemiologists, Second Edition
 Ebbing Lautenbach MD, MPH, MSCE,
University of Pennsylvania, Philadelphia, PA
 and Keith Woeltje MD, PhD,
*Washington University School of Medicine,
 St. Louis, MO*
 400 pp., Hard Cover, 2004,
 ISBN 1-55642-677-1
 Order#16771, **\$94.95**

If you work in today's healthcare epidemiology programs **you will need** the latest edition of *Practical Handbook for Healthcare Epidemiologists*. Situations that are encountered daily can be challenging, and now the answers needed are available in one solid resource.

Extensively updated and revised, this **best selling** handbook is concise

and user-friendly, and will provide practical information regarding many aspects of establishing and managing a healthcare epidemiology program.

The Society for Healthcare Epidemiology of America (SHEA) has recruited over 50 recognized leaders in the field to share their expertise. They discuss overarching goals, as well as successful strategies for handling specific situations and problems. There is also extensive information on infection control in the outpatient setting and measures to take after exposure to infectious agents. *This is the most complete hands-on source about healthcare epidemiology and infection prevention and control.*
