

Find a Mentor or Become a Mentor

The APSA Mentoring Program is an opportunity for all political scientists to network and share experience, advice and insights about career planning, scholarship, and a variety of professional issues such as:

- Selecting a dissertation committee
- Publishing and research
- Non-academic careers
- Life as junior faculty member
- Balancing family and work

The APSA mentoring database includes mentors with a wide variety of expertise and fields of interest. APSA is looking for additional mentors specifically in non-academic careers and international relations, and to mentor Ralph Bunche Scholars (RBSI) and/or APSA Minority Fellows (MFP).

Timely APSA Report Explores Inequalities in the Americas

The Double Bind: The Politics of Racial and Class Inequalities in the Americas

The 2016 task force report “The Double Bind” investigates

how race and class interact to produce political, social, and material inequalities in the nations of the Americas. Political science has begun to pay greater attention to the causes and consequences of inequality, but the recent literature on inequality in political science has focused on how rising income inequality affects political representation. The task force delves further.

The authors grapple with both the problem of rising socioeconomic inequality as well as the multifaceted racial gaps that exist throughout the Americas. They examine how race and class inequalities are epiphenomena of politics. They organized their inquiries around the role of institutions, social movements, party politics, and the mobilizing power of group memberships. They found that low socioeconomic status and the incentives of the party system hinder ethnoraacial minorities from translating their demographic potential and civic participation into meaningful socioeconomic gains. This disparity persists even in countries where minorities represent a large percentage of the population and participate actively in elections.

Read “The Double Bind” at <http://www.apsanet.org/inequalities>. This timely report is a free digital publication written to expand public knowledge and inform policy. Feel free to download share it with colleagues.

One Nation Undecided Clear Thinking about Five Hard Issues That Divide Us

Peter H. Schuck

"At a time of deep social and political division, along comes a much-needed book to steer us toward solutions to five very difficult national problems. There could be no better guide for this endeavor than Peter Schuck, one of the clearest and most thoughtful legal and policy scholars of this or any generation. Every policymaker at every level of government, and ideally every citizen, should read this book."

MODERATES

The Vital Center of American Politics, from the Founding to Today

David S. Brown

"Brown seeks to correct conventional wisdom by arguing that, historically, 'moderates' played a more significant role in American politics than today's pundits on the right and left suggest. He traces moderate thought and policy proposals back to the founding of the nation, maintaining that centrism has always had a common purpose."

Freedom, Opportunity, and Security

Economic Policy and the Political System

By Douglas Downing

FREEDOM,
OPPORTUNITY,
AND SECURITY

Economic Policy and the Political System

DOUGLAS DOWNING

"In this entirely original work, Professor [Douglas] Downing invites his readers to reconsider our existing economic policy structure in light of some basic principles regarding what the aims of such policies really ought to be. Downing's suggestions for policy reform seem quite reasonable, his arguments are persuasive, and—above all—his prescriptions seem sensible within the context of the principles he lays out at the onset....But be forewarned: Downing may very well change your mind!"

—Victor V. Claar, Henderson State University

Freedom, Opportunity, and Security presents ideas on government economic policy that appeal to both sides of the political divide. The book starts from basic principles to develop the case for a free economy, and then presents the case for policies to provide opportunity and security.

Even when we know the best economic policy, there is a problem if the political system rewards candidates who support narrow-interest policies more than general-interest policies. This book offers strategies to improve our dysfunctional presidential nomination system and uncompetitive congressional elections.

Politics & International Relations

Books and Journals from
Cambridge University Press

The politics list at Cambridge is one of unparalleled quality and range.

Our books list routinely tops surveys of political scientists for the calibre of its output, which includes field-defining series such as Cambridge Studies in Comparative Politics, Cambridge Studies in International Relations and Cambridge Texts in the History of Political Thought.

American Political Science Review and *International Organization* are widely recognised as the leading generalist journals in political science and international relations, while the likes of *British Journal of Political Science* and *World Politics* remain essential reading for researchers worldwide.

For students and scholars across the breadth of political enquiry, Cambridge is the resource of choice.
