Wherever there is pain and anxiety, there is fast relief with Nitronox®

Nitronox® Field Unit

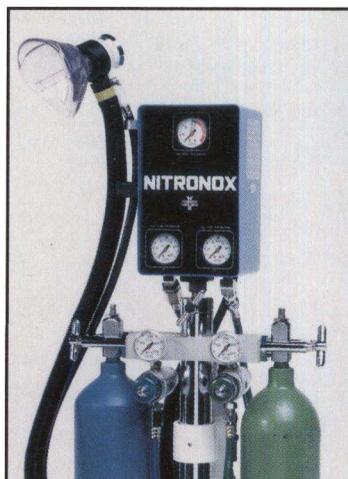

At the scene of an injury or in a hospital emergency department, Nitronox® from Matrx provides safe, fast, effective sedation and pain relief in emergency settings. Nitronox is available in two basic models: a field unit and a hospital unit.

Nitronox® Field Unit

- For use by pre-hospital personnel for pain and anxiety relief at the scene of an injury.
- Lightweight, only 11 lbs., making it truly portable.
- Can operate directly off portable oxygen regulator or ambulance outlet.
- Compact to fit in almost any ambulance compartment.

Nitronox® Hospital Unit

- Designed for use in Emergency Departments, Burn Centers and other hospital units.

Nitronox® Hospital Unit

- Self-contained unit can be easily moved from room to room.
- Includes pin-indexed yoke block with cylinder contents gauges.
- Features patented Matrx Gas Scavenger System for efficient operation.

Built-in safety features on both models

- Preset 50/50% - N₂O/O₂ mixture.
- Oxygen-driven pressure control.
- Audible alarm for gas mix change or supply failure.
- 100% O₂ capability.

For more information on the use of nitrous oxide analgesia and Nitronox®, call Matrx Medical at 800-845-3550 or write: Matrx Medical, Inc., P.O. Box 903, Ballentine, South Carolina 29002.
